Lancaster Farming

Vol. 19 No. 37 | Lancaster Farming, Saturday, July 27, 1974 | $2.00 Per Year

Lancaster Farming Photo

A five-year-old cow shown by John Welk, left, walked off with grand champion honors at Thursday's Lancaster District Holstein Show held in the Guernsey Sales Barn. Russell Kline, right, took the reserve ribbon with his four-year-old.

4-H Dairy, District Holstein Shows Held

This was the busiest week of the year for 4-H'ers enrolled in the three dairy clubs in the county. It was round-up time at the Guernsey Barn, east of Lancaster, and youngsters - and cows - worked hard to be ready for their turn in the ring.

Round-up got underway Tuesday with the colored breeds competing. The endless parade of animals caught the eye of many tourists who sauntered by to see what was happening.

It was a family affair in the Brown Swiss show, with Robert Witmer, Willow Street, capturing the senior and grand champion title with his two-year-old. His sister Linda took reserve champion honors with her senior yearling, which was also junior champion. Linda was also reserve senior Brown Swiss showman, and a younger sister, Judy, was junior champion showman.

A junior yearling owned by Jacqueline Kreider, Kinzer, was reserve junior champion while reserve senior champion was a two-year-old owned by Lois Wanner, Narvon.

Champion senior showman for the breed was Warren A. Schmuck, Peach Bottom, and reserve junior champion was Jacqueline Kreider.

The Balmer family of Lititz practically made a clean sweep of showmanship awards in the Guernsey breed, with Cheryl taking the champion senior showman prize, Carol champion junior showman and Connie reserve junior showman.

Reserve champion senior showman went to Linda Kauffman, Elizabethtown, who normally shows Holsteins but who was showing her first Guernsey, an animal she won last summer.

Senior and grand Guuernsey was owned by Mark Z. Witmer, Willow Street, and shown by his sister Susan. Junior champion and reserve breed champion belonged to Diane Crider, Nottingham. Her brother, Ricky Lee, showed reserve junior breed champion. Cheryl Balmer owned the reserve senior breed champion.

There is at least one young man who will remember his first year at round-up as something special. Matthew Arrowsmith, Peach Bottom, took over Jersey breed competition by winning junior breed champion and reserve grand champion with his senior calf. He also was champion junior Jersey showman, and received special recognition by winning first place in competition for first year showmen only.

Barbara Aaron, Quarryville, showed the senior and grand champion Jersey, and Ellen Schmuck,

Berks Pageant Contestants

Eight girls will be vying for the title of Berks County Dairy Princess on Saturday, August 3, at 8:00 p.m. at the Kutztown Fairgrounds.

The contest will be held in conjunction with the Kutztown Jaycees Old Fashioned Picnic.

Contestants who will be participating in the pageant are:

Christine Adam is the daughter of Mr. and Mrs. James Adam, Hamburg, Pa. She is seventeen years of age. Christine plans to enter

Steve Donough

Active 4-Her and Livestock Judge

By Melissa Piper

Steve Donough, 17, has been active in 4-H for the past seven years completing steer and market lamb projects.

Steve is being kept busy these days working for his parents, Mr. and Mrs. Paul Donough, on their 127 acre farm in RD4, Manheim.

Livestock judging has been one of Steve's most outstanding accomplishments. Recently at the York County 4-H Livestock Judging Contest, Steve placed third in sheep judging and helped the Lancaster County team capture second place.

At State FFA Days held in June, he was third high individual and will be competing at the National FFA Contest in Kansas City in the Fall.

Last year at 4-H State Days, Steve was a high individual judge on the Lancaster County Junior Team and the County team placed first.

Steve, who will be a junior at Manheim Central School is also an FFA member and

Lancaster Farming Photo

Penn State extension veterinarian Dr. Samuel Guss, left, draws a blood sample from an anemic cow in the John Behrer herd at Spruce Creek. Helping Guss is Mike Behrer, John's son and a Penn State student. The work is part of Project 1870, a dairy herd health improvement study financed largely by donations from the dairy industry.

Dairy Herd Health Project Progress Report . . .

Working For Healthier Cows

Dairy herd health is a complex problem. Good management, of course, is the most important ingredient in any recipe for herd health, and Pennsylvania dairymen excel in management expertise.

"This state has some of the healthiest animals in the country," Dr. Samuel B. Guss told Lancaster Farming at Penn State. "Our problems aren't much worse than those in other states. But Pennsylvania is such an intensively farmed state, that we seem to get our problems before anybody else sees them. Of course, we get a chance to lick them sooner, too."

Guss, an extension veterinarian at Penn State, is an integral part of a unique herd health research project which has been underway at the University for the past three years. Project 1870, as it's known is unique both in its approach and its financing.

The project was started about three years ago with $17,000 in College of Agriculture funds. That money has been used up, and current operating funds are being donated largely by agribusiness firms and individual dairymen. Plans are to keep donors informed on the progress of the project as it moves along.

First step in the research work was to find 15 model herds and study them intensively for three years. The object here was to find out what the owners of these herds were doing right, then compare the findings in the model herds with those in problem herds. Much of the model herd work has been done, and project members are now working with five problem herds. The herds are located on each of the state's three major soil types - limestone, gray shale and red shale

Project 1870's approach is an unusual dairy study because it involves a broad cross-section of academic disciplines Participating departments at Penn State include veterinary science, animal science, poultry science, dairy science, agronomy, horticulture and agricultural Economics. The U.S. Regional Research Laboratory at the University is also participating. A committee of these researchers meets monthly to coordinate the project work and to talk about progress and problems.

Another unusual aspect of the project is the collection of data from commerical dairy herds, an approach which generally poses serious obstacles, chief of which is the loss of complete control over the research subjects.

Researchers must often work in a king of vacuum, where they set up and maintain carefully controlled environments so the effect of one variable can be observed with a reasonable degree of accuracy.

Laboratory findings under these controlled conditions have helped boost milk production tremendously over the past decade and they've helped to keep cows healthier longer. And yet, there are more and more instances occurring where dairy farmers are experiencing serious herd health problems even though they're sticking very closely to the advice they

Composite Report

Friday, July 26

	Cattle	Calves
This Week	5000	1200
Last Week	5103	1527
Last Year	4188	1241

CATTLE: Slaughter Steers opened the week 2.00-3.00 higher, some uneveness thereafter. High Choice and Prime steers experienced a loss of 50-75 although Standard and Good Holsteins closed an additional 1.00-2.00 higher. Cows opened the week 1.00-2.00 higher and experienced additional advances throughout the week and by the weeks close were 5.00-6.00 higher. Bulls closed the week 3.00-4.00 higher. Bullocks were fully steady throughout most of the week but closed 2.00-4.00 higher. Supply included an estimated 50 per cent slaughter steers, 20 per cent cows, 15 per cent bulls with the balance mainly feeder steers.

SLAUGHTER STEERS: High Choice and Prime 1075-1350 lb. 44.75-47.00, few 47.00-48.10; Choice 950-1425 lb. 43.75-46.25, few mainly yield grade 2 46.50-47.10, couple 47.50-47.85; high Good and low Choice 41.50-44.75; Good 37.00-42.50 with early sales of Good Holsteins 34.00-36.50; Standard 32.50-35.50.

SLAUGHTER HEIFERS: Choice 850-1070 lb. 38.25-42.00, few 42.00-42.50; Good 36.00-39.50; few Standard and Good 32.50-36.00.

COWS: Utility and high dressing Cutter closed the week at 30.00-32.25, few 32.25-33.00 (extremes on Monday only 28.00); Cutter 29.00-31.00; Canner and low Cutter 25.75-29.00, early week sales back to 22.50.

BULLOCKS: Choice 900-1200 lb. 37.00-38.50, few at the close 41.50-43.25; Good 34.50-37.00.

BULLS: Yield grade 1 1100-1600 lb. 34.00-39.00, several at the close 39.00-40.35, few 40.50-42.00; yield grade 2 1000-1400 lb. 33.00-37.00, few 31.50-33.00.

VEAL CALVES: Vealers rebounded from last weeks sharp drop. Bulk Standard to Prime vealers 2.00-5.00 higher with Utility closing 5.00-10.00 higher.

VEALERS: Prime 62.00-70.00, few 72.00-78.00; Choice 54.00-65.00; Good 45.00-55.00; Standard 37.00-47.00; Utility 90-120 lb. 25.00-35.00, 65-85 lb. 20.00-28.00.

RETURNED TO FARM: Bulk 100-125 lb. Holstein heifers 54.00-55.00; bulk 100-125 lb. bull calves 44.00-49.00, few 90-105 lb. 33.50-34.50.

HAY MARKETS

Paul Z. Martin

Wednesday, July 24

20 loads of hay, straw and ear corn sold as follows:

Alfalfa 60; Mixed Hay 31 to 39; Timothy 38.50 to 51.50; Straw 36 to 40; Corn 91 to 97.

Regional

Monday, July 22

(All hay No. 2 and better prices paid by dealers at the farm price per ton.)

Hay and straw slow, mostly steady to weak.

Alfalfa 30.00-50.00, some 2nd cutting 50.00; Mixed hay 25.00-35.00, few to 45.00; Timothy hay 20.00-30.00; Straw 25.00-30.00, Mulch 12.00-22.00.

Local Grain

Thursday, June 27

These prices are made up of the average prices quoted by five participating local feed and grain concerns. It should be noted, however, that not every dealer handles each commodity. All prices are per bushel except ear corn which is per ton.

The average local grain prices quoted Thursday, June 27, 1974 are as follows:

	Bid+	Offered
Ear Corn	87.00	97.50
Shelled	3.66	3.94
Oats, Local	1.57	1.85
Western	2.15	2.37
Barley	2.07	2.30
Wheat	3.73	4.10
Soybeans	7.75	8.00

+Bid is the price the dealer will buy from the farmer delivered to the mill. Offered is the price the dealer will sell for at his mill.

New Holland

Monday, July 22

10 loads of Hay and 17 loads of Straw sold as follows: (prices per ton).

Alfalfa, few loads 64.00-73.00; Timothy, 2 loads 41.00 and 46.00; Mixed hay, one load at 52.00; Straw 31.00-41.00; Corn, 16 loads 95.00-99.00; Oats $1.77 per bushel; Barley $2.30 per bushel.

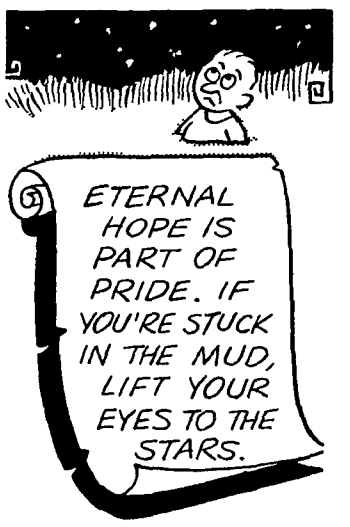
Green Dragon

July 19, 1974

Prices per ton: 27 loads hay & 20 loads straw.

Alfalfa, 3 loads 59.50-75.00; Timothy 40.00-49.00, individual 60.00; Mixed hay 37.00-60.00, few 27.50-33.00; Straw 35.50-39.00.

PUNCH LINE OF THE WEEK



New Holland Horse Auction

Wednesday, July 24

Reported receipts of 494 head of horses, mules and ponies. Market stronger than last week's.

Load of Riding horses from Kansas 150-365.

Load of Oklahoma riding horses 165-410.

Load of Tennessee riding horses 190-390.

Load of Illinois riding horses 110-325.

Local work horses 275-350, mules 140-200 and driving horses 175-380. Riding horses 145-220, better horses 235-530.

Lightweight killers 16-18, heavy weight killers 18-21, mare ponies 15-40, colts 5-10, geldings 15-30 and larger ponies 50-110.

New Holland Dairy Auction

Wednesday, July 24

Reported receipts of 152 cows, 7 heifers, 2 bulls. Market steady with last weeks.

Load of Pennsylvania cows, fresh 735-1225. Load of Wisconsin and Canadian cows, fresh 465-710.

Load of Wisconsin cows, fresh 585-740.

Load of Luzerne cows, 600-770, springers 430-700.

Load of Franklin County cows, fresh 600-770, springers 430-700.

Locally consigned cows 450-590.

Springing heifers 475-535 and bulls 195-300.

New York Dressed Meats

Thursday, July 25

Compared with Wednesday: Prices continue very weak for steer and heifer beef. Veal, calf and lamb steady to mostly weak, pork loins fully $3.00 lower, picnics $5.00 lower, butts and spareribs weak, hams steady to weak.

Wholesale meat busniess continues poor in the New York metroplolitan area with wholesalers struggling under low weekly tonnage and costs-sales margins falling short of net cost to market. Beef under hard pressure along with lamb chucks, veal and calf foresaddles and pork cuts.

Steer Beef

Prime 600-900 lb. 73.50-75.00; Choice 600-700 73.50-75.00; 700-800 73.00-74.50; 800-900 72.00-73.50; Good 500-800 65.00-69.00.

Heifer Beef

Choice 500-700 73.50-75.00.

Calf (Skin Off)

Choice 150-350 74.00-80.00; Good 150-350 63.00-70.00; Standard 150-350 59.00-64.00.

Veal (Skin Off)

Choice 90-150 97.00-101.00; Good 60-90 84.00-89.00; Standard 60-120 70.00-74.00.

Lamb

Choice and Prime 30-55 85.00-88.00; 55-65 84.00-87.00.

Choice Beef Cuts

Hinds (steer) 145-190 86.00-88.00; Arm Chucks 90-105 59.00-62.00; Ribs (7-rib) 34-40 90.00-93.00; Loins (trmd) 50-70 113.00-115.00; Rounds (steer) 70-95 81.00-82.00; Full Plates 29.00-30.00; Hinds (heifer) 120-170 86.00-87.00.

Pork Cuts (Fresh)

Loins (regular) 8-14 73.00-76.00; 14-17 70.00-74.00; Picnics (regular) 4-8 48.00-53.00; Boston Butts 4-8 62.00-64.00; Spareribs 3 lbs. down 82.00-85.00; Hams (skinned) 14-17 64.00-66.00; 17-20 63.50-65.00.

Oklahoma City

Thursday, July 25

Estimated Receipts 6,700

Trade active under a good demand. Feeder steers 1.00-2.00 higher, feeder heifers 1.00-2.00, instances 3.00 higher; hardly enough feeder steers and heifer calves for an adequate market test, best buyer demand centered on Choice steers 600 pound and heavier and heifers 550 pound and heavier. Bulk supply 600-800 pound feeder steers and 500-700 pound feeder heifers. Cows and bulls less than 10 percent of supply. Advanced estimate for Thursday. feeder cattle auction 8,500.

FEEDER STEERS: Few lots Choice 400-500 pound 36.75-38.50; 500-700 34.50-37.08 700-800 35.90-37.35. 800-900 36.50-37.78 couple lots 810-870 39.80-39.90. Mixed Good and Choice couple lots 39.80-39.90. Mixed Good and Choice couple lots 475-488 pound 33.40-34.90; 500'700 pound 33.00-34.00. Several lots Good 550-870 pound Holsteins 26.80-28.80.

FEEDER HEIFERS: Few Choice 400-500 pound 31.00-32.00; 500-600 31.50-34.25; few 600-700 32.00-35.00. Lot Good 512 28.00.

LANCASTER STOCKYARDS FEEDER PIG SALE HIGHLY SUCCESSFUL.

Sellers and Buyers Both Pleased.
Last Sale Over 1100 Pigs Sold.

NEXT SALE TUESDAY, AUGUST 6 AT 1:00 P.M. LANCASTER STOCKYARDS

All pigs must be tagged. Consignors can save 25 cents per pig expense if tagged on the farm. Tags may be obtained at the office of J. M. Hoober, Inc.

CONSIGN YOUR FEEDER PIGS TO

J. M. Hoober, Inc.

For further information, call J. M. Hoober, Inc. Phone (717) 397-6191, 569-2084, 626-5659

Serving you since 1895

IMPORTANT NOTICE

ON AUGUST 6, BEGINNING AT 1 P.M.,

THE THIRD FEEDER PIG SALE WILL BE HELD AT THE LANCASTER STOCKYARDS.

All pigs consigned to the sale must arrive that day between 7 A M. and 11 A.M , at which time they will be state inspected for health, state graded and sorted and then weighed and penned. Trucks bringing pigs from out of the state must be disinfected and all pigs bought at the sale must be loaded out not later than midnight, August 6.

Since all pigs must be tagged it is suggested that the consignors tag their pigs at the farm, thereby saving 25 cents per pig expense. Tags for this purpose can be picked up at Dunlap's office.

We respectfully solicit your consignments which will be handled by a staff of experienced and well qualified personnel. For further information call (717) 397-5136.

Delmarva

Broiler-Fryer Market
Wednesday, July 24

Ready to cook movement fair though still lacks desired aggressiveness to fully clear available supplies. Slaughter schedules reduced at several plants in line with expected needs. Today's less than trucklot asking prices tended slightly lower within unchanged ranges on both plant and US Grade A. Advance interest slow in developing in face of higher asking prices. Live supplies fully adequate. Undertone unsettled.

Current broiler-fryer negotiated prices for immediate delivery mostly multiple-drop shipments to New York City from Delmarva:

Range: US Grade A 35-36½; Plant Grade 34-36; Premium US Grade A 39-40; Premium Plant Grade 37-38.

Weighted Average: US Grade A 35.70; Plant Grade 34.82; Premium US Grade A 39.79; Premium Plant Grade 37.95.

HEIFERS: Four loads Choice and Prime 888-1043 pounds 2-4 44.50 early, small supply same grade 900-1112 3-4 43.75-44.00. Choice 825-1025 2-4 42.00-43.75. Mixed Good and Choice 750-1000 40.00-42.00, some late 750-825 39.00-40.00. Good 35.00-40.50. Small lots Standard and Good 33.50-34.50.

COWS: Utility and Commercial 24.00-25.50 late, a few Utility 26.00-26.50. Canner and Cutter 20.00-24.00, Mixed Cutter and low-Utility 24.25-25.00.

BULLS: 1 & 2 1400-1800 pounds 26.00-30.00, a few 1 31.00-33.00.

FEEDERS: Three loads Choice 918 pound steers 40.50, few Good and Choice 735-828 pound steers 33.00-36.00.

Salt In Hot Weather?

Salt? We wouldn't want to live without it. We couldn't live without it. Salt is a constituent of seawater, of the soil, of plants and of every living cell and tissue.

And we all remember reading in our history books that wars have been fought over salt. We not only need it nutritionally but in ancient times, in particular, it was the means of preserving precious food. Civilizations were built on salt's availability.

The proper exchange of salt in the human body is essential to life. The impairment of this process interferes with the proper fluid content of the tissues and with the electrical components of the tissues functions. When something goes wrong with the handling of salt in the body, there is serious trouble.

A Seasoning Favorite

Thus there is no more vital element in human physiology than ordnary table salt - sodium chloride.

Salt is, of course, also a great favorite because it is a seasoning that brings out the flavor of other ingredients in our food. And some salt is naturally present in food, in varying amounts.

Foods from animal sources, including meat, fish, poultry, milk and cheese, contain more sodium than do foods from plant sources. Foods from the sea are, of course, higher in sodium than fresh water fish.

Which brings us to warm weather - and the belief that is circulated each summer that extra salt is needed when people work or exercise and perspire a great deal.

Diet Gives You Enough

Actually, the ordinary American diet provides sufficient salt for an adult to survive even the most vigorous sweating as long as his intake of water is maintained. Survival research in the U.S. Army in which I have personally been involved has proven that soldiers do not need things such as salt tablets, but they do have to drink sufficient liquids.

At the grocery store you can purchase either iodized or plain salt. I recommend iodized.

THE OLD FARMER'S ALMANAC

JULY 29-AUG. 4, 1974

The blackberry vine bends with its weight.

It will be hot this week, so lay low . . . Columbus started to sail west Aug. 3, 1492 . . . Full moon Aug. 2 . . . Coast Guard founded Aug. 4, 1790 . . . Average length of days for week, 14 hours, 30 minutes . . . Lincoln orders up 300,000 men Aug. 4, 1862 . . . Pilgrims left Holland Aug. 2, 1620 . . . U.S. Census-taking began Aug. 1, 1790 . . . The "Marseillaise" written July 30, 1792 . . . If you have many irons in the fire, some will cool.

Old Farmer's Riddle: Why is a clock like a condemned man? (Answer below.)

Ask the Old Farmer: My grandmother used to dose me with mullin tea. Did you ever hear of it? D.S., Philadelphia.

Yes, and mullin syrup, made from the root, thickened with molasses. We don't know whether it would cure anything or not, but it would certainly take your mind off the sickness.

Home Hints Try coating fish with finely crushed onion or garlic potato chips before frying They give a different, but delicious, flavor to fish . . . *Riddle answer* Its hours are numbered.

OLD FARMER'S WEATHER FORECASTS

New England: Cloudy, rainy and cool all week.

Greater New York-New Jersey: Cloudy to start, then heavy rain and cool; clear and pleasant but becoming hot latter part.

Middle Atlantic Coastal: Heavy rain at first, then partial clearing and cool; end of week generally clear and becoming hot.

Southeast Coastal-Piedmont: Clear and very warm all week inland; rain along coast all week.

Florida: Rain all week except partly sunny in north by weekend.

Upstate & Western N.Y.-Toronto & Montreal: Rain and warm to start, then clear and very warm; rain latter part, then mostly sunny on weekend.

Greater Ohio Valley: Rain at first, then partly sunny; end of week generally clear and becoming hot.

Deep South: Rain, heavy in central and north, to start, then clearing and hot; late week showers in east and central.

Chicago and Southern Great Lakes: Week begins with light rain, then clearing and very pleasant; mostly sunny and hot latter part.

Northern Great Plains-Great Lakes: Most of week clear and warm; intermittent rain and very warm at week's end.

Central Great Plains: Generally clear and hot all week except late week showers in west.

Texas-Oklahoma: Week begins mostly sunny and very hot, then light rain along Gulf; end of week partially clear and hot.

Rocky Mountain Region: First part of week mostly sunny and becoming hot, end of week partly cloudy with light rain.

Southwest Desert: Clear and hot to start, then cloudy and cooler; light rain latter part.

Pacific Northwest: Early week partly cloudy and warm with showers in north; end of week sunny and warm.

California: First part of week cloudy and warm with intermittent showers in north; mostly sunny and mild by end of week.

AUTHORIZED Big Dutchman. DISTRIBUTOR

Farmers Rate Farm Publications High As Information Source

Farmers rely heavily on farm publications, equipment shows, and advertising to learn about new farm machinery. But their own and their neighbor's experiences are more influential when they get ready to buy.

These major findings on farmers' sources of information come from a Massey-Ferguson survey conducted by Doane Agricultural Service.

In Obtaining information about new equipment, 83 percent of all farmers said they rely on farm publications. Farm equipment shows (68 percent) and farm machinery advertising (62 percent) rank second and third as information sources. Other sources of information: dealer personal contact, 55 percent; direct mail, 54 percent; dealer open house, 51 percent; manufacturers' publications, 48 percent; product literature, 39 percent; dealer meetings, 32 percent; TV, 13 percent; radio, 13 percent.

When asked about information sources used in making purchase decisions, 94 percent of all farmers in the study indicated past experience with a brand as the most important information source.

Second were neighbors' experiences; 75 percent of all farmers indicated they depended on the experiences of their neighbors in deciding what to buy. Other information sources used by farmers in buying decisions: farm equipment dealers, 59 percent; demonstrations on farms, 39 percent; machine articles in farm publications, 39 percent; farm equipment shows, 38 percent; Nebraska Tractor Tests, 20 percent; Extension personnel, 8 percent; and consultants, 6 percent.

Larger farm operators ($40,000 and over annual gross income) depend more on farm equipment dealers, farm demonstrations, equipment shows, and the Nebraska Tractor Tests than smaller operators in deciding what to buy. On the other hand, neighbor farmers are more important to Class II ($20,000-39,999) and Class I ($10,000-19,999) farmers. The lower income group relies less on dealers, demonstrations, shows, and the Nebraska tests than do either of the higher income groups.

Doane polled 5,200 members of its Countrywide Farm Panel, and 3,617 usable replies were received. They represented commercial farmers in all sections of the United States grossing $10,000 or more annual income.

Consumers' Corner

CRIB SAFETY

Use the new baby crib safety regulations set up by the Consumer Product Safety Commission to rejuvenate an old crib. These can give you a guide for changes in safety.

First, check the overall condition of the crib. Missing slats and broken parts should be replaced and loose bolts tightened. And, if you decide to refinish the crib, use only non-toxic paint or other finish. A baby can suffocate by wedging its head between the mattress and crib. So be sure the mattress fits the crib frame snugly. If you can fit more than two fingers between the mattress and crib, then the mattress is too small.

Some infants have been seriously injured and even strangled by getting caught between the slats Here's where a bumper pad helps But be sure the bumper runs around the whole crib, and that it has at least six straps that tie or snap it securely into place.

As your child grows, check the mattress height. As soon as he can pull up into a standing position, put the mattress in its lowest position to keep him from topling over the rail In fact, when the height of the side rail is less than three-fourths the height of the child, it's time to stop using the crib.

Crib safety is important in "used" cribs — as well as new ones So make the new safety regulations a check-up guide for the baby crib you already have.

Manager Amos Myers says:

"Rate the performance of FNB's new Penn Hill office. It may win you this 19-inch, color television set!"

"When Farmers National opened its Penn Hill office last October, we brought to Southern Lancaster County more than the finest facility of its kind.

"We brought 'banking the way you'd do it': Our commitment to provide the services and conveniences that customers truly appreciate.

"Are we succeeding? Rather than rate ourselves, we'd like you to help us. And, for doing it, we'll give you a chance to win a beautiful, 19-inch Zenith color television! There's no cost to enter, and no obligation!

"Just make checkmarks appropriately below. Cut out and mail or take the form* to our Penn Hill office (address at bottom of ad). Then wait for notice of the winner to be published, after the prize drawing on Oct. 4.

"You've nothing to do but candidly tell us how we're doing. So please do!"

Mr. and Mrs. Jesse Balmer, RD4, Lititz, area delegates on the People to People Tour, pack their well marked suitcases before leaving for Denmark.

Lancaster Farming Photo

Arthur Graybill, part-owner of Denver's Triple G farm and dairy store, talked about his operation to a group of farmers who were in Lancaster County last week for the annual Pennsylvania Young Farmers Association convention. While they were here, the farmers toured several farms in the area, conducted their annual business meeting and heard from several notables, including U.S. Senator Richard Schweiker.

Area Farmers on People to People Tour

Several area farmers and their wives left Thursday afternoon for Europe on a People to People Tour.

The tour, which will last until August 14, will take participants through Norway, Denmark, Sweden, Finland, Poland and ending in Switzerland.

The delegates will be visiting farms and talking over agricultural problems with the people in these countries.

Some of the area residents on the trip include Mr. and Mrs. Newton Bair, Mr. and Mrs. Harold Bollinger, Mr. Light Bomberger, Mr. and Mrs. Jesse Balmer and Mr. and Mrs. Enos Heisey.

Male Marketers

More men are shopping in supermarkets than ever before. A study revealed the husband was present 50% of the time, either alone or with his wife, on the most recent trip to buy food and household supplies Who bought the groceries? Wife alone, 53%; husband and wife, 19%, husband alone, 22%, others 6% The husband was involved in product purchases 41% of the time

Dogs Outnumber People

During the baseball season the number of hot dogs sold at ball parks equals or exceeds attendance

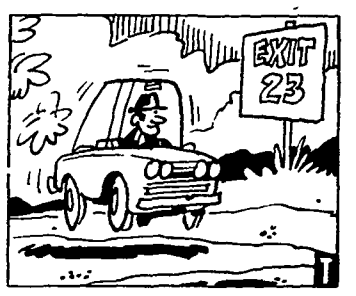
understanding **YOUR CAR**

FOR SAFETY AND ECONOMY

A Lot Rides On Your Tires

Only one part of your car ever comes in contact with the road, your tires, and the more you know about caring for them, the better service and performance you'll get from them

Before buying, tell the dealer the type of roads you



travel, speed you drive, weight you carry, monthly mileage and how long you expect to keep the car

Avoid quick starts, panic stops, fast turns and excessive speeds that tend to take a toll on tire treads. Proper inflation is important, too, for safety, tire mileage and improved gasoline mileage. Check the air pressure (when the tires are cold) monthly. In fact, researchers at Gulf Oil recommend that they be checked weekly if you're a hard driver.

Equalized wear means more mileage and regular tire rotation is a great equalizer. While you're rotating, look for excessive abnormal wear, which could be a symptom of out-of-balance wheels, grabbing brakes or faulty shock absorbers. More information on tires and tire safety is available from Gulf Oil Consumer Information, Box 1403-J, Houston, Texas 77001

You've got a lot riding on your tires--keep an eye on them!

Here's the Profit Secret of Feeding Dairy Beef

Properly fed dairy beef is in demand because dairy beef compares favorably to regular beef when finished bloom on the Wayne **Wayne Dairy Beef Feeding Program.** Wayne-fed dairy beef is tender, has less fat and is bright red in color. In short, it has about everything the housewife looks for at the supermarket.

The **Wayne Dairy Beef Program** starts with the recently born calf and doesn't quit until it's ready for market . . . at 1,000 to 1,100 pounds. This is the program that put profit in dairy beef. Interested? Come in and talk.

The farm of Carl and John Myer, RD2, Lititz was one of the stops included on the Dutch Country Harvestore Tour held this week by the Penn-Jersey Harvestore Systems, New Holland.

Tour Visits Lititz Farm

Walnut Run Farms, RD2, Lititz, owned by Carl and John Myer, was one of five farms included in the Pennsylvania Dutch County Harvestore Dairy Tour sponsored by Penn-Jersey Harvestore Systems in New Holland.

Carl and John Myer formed a partnership and expanded their Walnut Run Dairy operation from 40 cows to 135 cows this past year.

Their farm consists of 160 tillable acres and they rent and additional 240 acres. They grow potatoes on 115 acres and have 150 acres of corn with the rest in crops and hay.

Farm Commentary

Weed Control Field Day

John Yocum, who's in charge of the Penn State Research Farm near Landisville, says he's got a weed control field day set for July 31, rain or shine, and everyone's invited. Dr. Nathan Hartwick will be coming down from Penn State to talk about weeds in corn, Dr. Richard Cole, also from Penn State, will cover weed problems in soybeans, while Yocum will talk about keeping the pesky things out of tobacco.

Demonstration plots are all set to provide visual proof of the three experts' guidelines. You'll see all and hear all if you get to the farm by 1:30 p.m.

Directions to the farm, from Lancaster and south: take Route 283 west to the Salunga-Landisville exit. Go north about half-a-mile, turn left on Shenk Road, drive through the first covered bridge you see and you'll be at the farm. From the Manheim area, take Route 72 to Auction Road, turn onto Auction Road and continue for about three miles until you come to the farm's sign.

Still Time to Enter the Plowing Contest

Level land and contour plowing contests will again be staged for Lancaster County plowmen, this year on August 6. George Hough, Peach Bottom RD2, is the host farmer this year. August 7 is the rain date.

If you haven't already entered, you can do so by contacting the County Conservation District Office at the Farm and Home Center, phone number 299-5361.

Besides the plowing events, there'll be a land judging contest for FFA students. Ronald Althoff, vo-ag teacher from Solanco, will be in charge of this event.

And for the kids who really want to get into things, there'll be a greased pig chase for youths aged 8 to 13, and a rooster chase for the youngsters under 8. We haven't been told whether or not the rooster will be greased.

Directions to the Hough farm: Drive south on Route 272 to a point three-and-a-half miles south of the Buck. Turn right on Spring Valley Road and continue about half a mile to Slate Hill Road. Turn left at this junction on Slate Hill Road and continue for about three miles. The plowing contest will be on the left side of the road, and there'll be signs to guide you along your way.

Doing Something About Troubled Waters

The Ephrata Young Farmers have agreed to pitch in and help clean up a section of the Cocalico Creek still filled with debris from the Agnes storms of two years ago. About 50 members of the group are expected to show up ready to work, bringing their own tractors, chains and chain saws They'll converge about 10:30 on a section of the stream that runs through the Titus Zimmerman farm, between the Triple G Dairy Store in Denver and Route 222. Afterwards, they'll converge on Stevens hog producer Terry Scheetz, who's promised to barbecue a hog for the occasion.

The whole effort was coordinated by the Cocalico Watershed Association, which is asking various farm and civic groups to adopt and care for sections of streams in the Cocalico watershed area.

Young People Opt for the Simple Life

The 30-year floodtide of farm and rural youth to the big city is slowing to a trickle, according to assistant U.S. ag secretary Will Erwin, who's in charge of the USDA's rural development program. Part of the reason, Erwin said, is that more job opportunities are opening up in rural areas, and lots of young people simply prefer country life to the big-city hassle.

Erwin said that one of the goals of his work is to get more small town and rural groups to organize comprehensive development plans for their communities as a means of providing job opportunities.

Letters

To The Editor: The 1974 Chester County Dairy Princess Committee would like to express their appreciation to the Lancaster Farming for the excellent coverage we received for our Princess Pageant We would like to thank the following for their generous contributions and support. Without their help we could not have had such a successful pageant.

THE GOAL

Lesson for July 28, 1974

Background Scripture: Philippians 2: 1-18; 3.

Devotional Reading: Philippians 2:1-13.

A mother sent her little boy to the store for some groceries. Much later, the little boy returned empty-handed. "Where are my groceries?" his mother wanted to know. "Groceries?" replied the boy, "Oh yeah, I forgot about them, I guess!" He had become distracted along the way and forgotton his purpose.

Distracted by rubbish

That is a parable of life, for many of us get distracted along the way and never achieve our goal. Wasn't that the problem in the tale of "The Tortoise and the Hare"? The hare got distracted along the way and didn't finish the race. The tortoise, however, plodded on and reached the goal.

Of course we all know that we must not become distracted from our goal, but resisting those distractions along the way is not so easy. One of the reasons is that the distractions are usually very attractive. They have the power to divert our attention from the goal.

In Philippians, Paul speaks of some of the distractions which keep men from their goal. There is the temptation to settle for manmade qualifications and achievements. For example, says Paul, if you want to talk about qualifications, look at these:

circumcised on the eighth day
of the people of israel
of the tribe of Benjamin
a Hebrew born of Hebrews
as to zeal a persecutor of the church
as to righteousness under the law blameless (3:5)

What a pedigree!

"I press on"

No, not really, says Paul. It all looks good, but it is so much rubbish in light of the true prize and goal: "... knowing Christ Jesus my Lord" (3:7). All these qualifications, bright and glittering though they may seem, are but worthless distractions that cause men to stop along the way and fail to finish the race of life.

How easy it is to be distracted and settle for something other than the goal. This is no less true for us than it was for Paul. Just think of all the distractions that cause you to take your eyes off the real prize of life!

The secret is to realize that you cannot stop before you have reached the goal. "Not that I have already obtained this or am already perfect; but I press on to make it my own . . ." (3:12). If we stop along the way, we may become satisfied and never finish the race. With Paul, we must learn to say: "... forgetting what lies behind and straining forward to what lies ahead, I press on toward the goal for the prize of the upward call of God in Christ Jesus"!

(Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U.S.A. Released by Community Press Service.)

NOW IS THE TIME . . .

To Check Alfalfa Management

Maximum yields of quality alfalfa hay or forage crop silage should be the goal of every alfalfa grower. There are many practices involved in top yields but the proper time of cutting and management in the fall is one of the most important for a long-time stand. We refer to the cutting of the third or last crop during September and October. We find some difference in opinions about the last cutting but most authorities seem to agree that in this part of the country alfalfa should not be cut during the first half of September. To remove a crop during this period is sure to weaken the plants for the future. Growers are urged to become familiar with the proper late summer and fall management practices.

To Utilize Testing Services

One of the important scientific advances in today's agriculture is the availability of testing services for soil and forage crops. We are aware that some producers are using these testing services to an advantage; however, no doubt many more crop and livestock producers could benefit from knowing the actual needs of a soil or the actual contents of a forage crop. We refer to the testing services available through the Penn State Testing Laboratories or from other individual concerns. Forage crops now being harvested, (both hay and silage) need to be tested soon in order to develop the proper grain rations. Feeding recommendations are available along with the results if requested.

To Beware of Wild Animals

Rabies is a serious infection for both man or beast. At this time of the year all rural people and anyone going outdoors or spending time in the woods or mountains are urged to be careful about handling the young of wild animals. Also, a wild animal that is acting tame or peculiar should never be caught or handled. The temptation for youngsters to make pets from these small animals is always present; however, parents are urged to make their children leave them alone and let them stay outdoors. Many farmers are inclined to properly eradicate wild animals acting peculiar along with stray dogs and cats. In many cases these animals may carry rabies as well as other infectious diseases.

To Evaluate Markets

We have often heard that farmers should spend more time on marketing rather than all their time on production. At this time of the year when many cattle feeders might be planning to fill their feedlot in the next few months, it would be helpful to follow the markets more closely and attempt to buy at the right time. Weather conditions in some parts of the country make it possible to buy feeders at an advantage if the existing conditions are fully known. Some effort to study market conditions of various commodities being produced, might make it possible to make better purchases and to sell at an advantage. Good marketing has got to be a vital part of today's agriculture.

Horse Round-Up Winners Announced

The Lancaster County 4-H Horse and Pony Round-up was held on Saturday July 20 at the Lancaster Riding and Tennis Club. The top two placings in the Grooming and Showmanship, Pole Bending and Barrel Races will be competing at the Regional 4-H Horse show. The top three placings in all other classes will be competing in the Regional show. The first three winners in each class are:

Gromming & Showmanship - Junior

1st - Rick Buckwalter, Denver; 2nd - Cindy Burkey, Lancaster; 3rd - Sherri Myers, Lancaster.

Grooming & Showmanship - Senior

1st - Natalie Immel, Lititz; 2nd - Margaret Keeney, Manheim; 3rd - Debbie Heidig, Lancaster.

Pleasure Pony Driving

1st - Pam Sammons, Lancaster; Karen Hinerdeer, Lancaster; Linda Ehrgood, Lititz.

Open Trail

1st - Debbie Heidig, Lancaster; 2nd - James Glick, Leola; 3rd - Shelly Sandell, Lancaster.

County Team

None.

Pair Class

1st - Heidi Bailey, Quarryville and Donna Bare, Witmer; 2nd - Daphne Immel, Lititz and David Root, Manheim; 3rd - Rosalind Falk, Millersville and Donna Sammons, Lancaster.

Stock Seat Equitation - Junior

1st - Cindy Burkey, Lancaster; 2nd - Daphne Immel, Lititz; 3rd - James Glick, Leola.

Stock Seat Equitation - Senior

1st - Karin Risser, Stevens; 2nd - Debbie Heidig, Lancaster, 3rd - Dan Fellenbaum, Lititz.

Western Pleasure Ponies - 12.2 hands & under

1st - Jeff Bare, Witmer; 2nd - Douglas Fellenbaum, Lititz; 3rd - Tina Simmons, Manheim.

Western Pleasure Ponies - 12.0 - 14.0 hands

1st - Cindy Burkey, Lancaster; 2nd - Mike Rhineer, Willow Street; 3rd - Donna Sammons, Lancaster.

Western Pleasure Horses - over 14.0 hands

1st - Karin Risser, Stevens; 2nd - Cherrie Gochnauer, Lancaster; 3rd - Debra Heidig, Lancaster.

Western Riding Contest

1st - Karin Risser, Stevens; 2nd - Debra Heidig, Lancaster; 3rd - Debbie Brandt, Manheim.

Pole Bending Ponies - 13.2 hands & under

1st - Debbie Brandt, Manheim; 2nd - Jeff Fellenbaum, Lititz; 3rd - Jeff Bare, Witmer.

Pole Bending Horse & Ponies - over 13.2 hands

1st - Ray Carmean, East Petersburg; 2nd - Karen Vogel, Lancaster; 3rd - George Metzler, East Petersburg.

Clover Leaf Barrel Race Ponies - under 13.2 hands

1st - Debbie Brandt, Manheim; 2nd - Kim Bernhardt, Manheim; 3rd - Jeff Fellenbaum, Lititz.

Clover Leaf Barrel Race Horse & Ponies - over 13.2 hands

1st - Karen Vogel, Lancaster; 2nd - Ray Carmean, East Petersburg; 3rd - George Metzler, East Petersburg.

Saddle Seat Equitation - Junior

1st - Sharon Ernstberger, Lancaster.

Saddle Seat Equitation - Senior

1st - Betsy Reese, Lancaster; 2nd - Judi Anderson, Lancaster; 3rd - Kathy Kauffman, Millersville.

Hunter Seat Equitation - Junior (not to jump)

1st - Carol Stinson, Strasburg; 2nd - Elyse Wells, Lancaster; 3rd - Vickie Bare, Witmer.

Hunter Seat Equitation - Senior (not to jump)

1st - Nancy Henkel, Strasburg; 2nd - Donna Rohrer, Lancaster; 3rd - Cheryl McFadden, Lancaster.

Hunter Seat Equitation - Junior (over Jumps)

1st - Shelly Sandell, Lancaster; 2nd - Kevin Emes, Lancaster; 3rd - Lashon Bussell, Manheim.

Hunter Seat Equitation - Senior (over Jumps)

1st - Donna Bare, Witmer; 2nd - Heidi Bailey, Quarryville.

Saddle Seat Pleasure Ponies - 14.2 hands & under

1st Betsy Reese, Lancaster.

Saddle Seat Pleasure Horses - over 14.2 hands

1st - Judi Anderson, Lancaster; 2nd - Jenny Weber, Millersville; 3rd - Sharon Ernstberger, Lancaster.

Low Yield, Disaster Payments Available

Lebanon county farmers are urged to enroll in feed grain & Wheat program now if they have not done so. The dry weather the last few weeks can have a drastic affect on corn yields since it is in the pollinating stage.

Low yield and crop disaster payments are available through the program on Wheat & Feed Grains (corn, barley & Grain Sorghum) Target price payments are also available if market prices should fall drastically. Commodity loans may be obtained on farm stored or warehouse stored grain.

Farmers are not required to have any idle ground or conserving base (hay ground) for participation in the 1974 programs. Contact the local Lebanon ASCS office now for details.

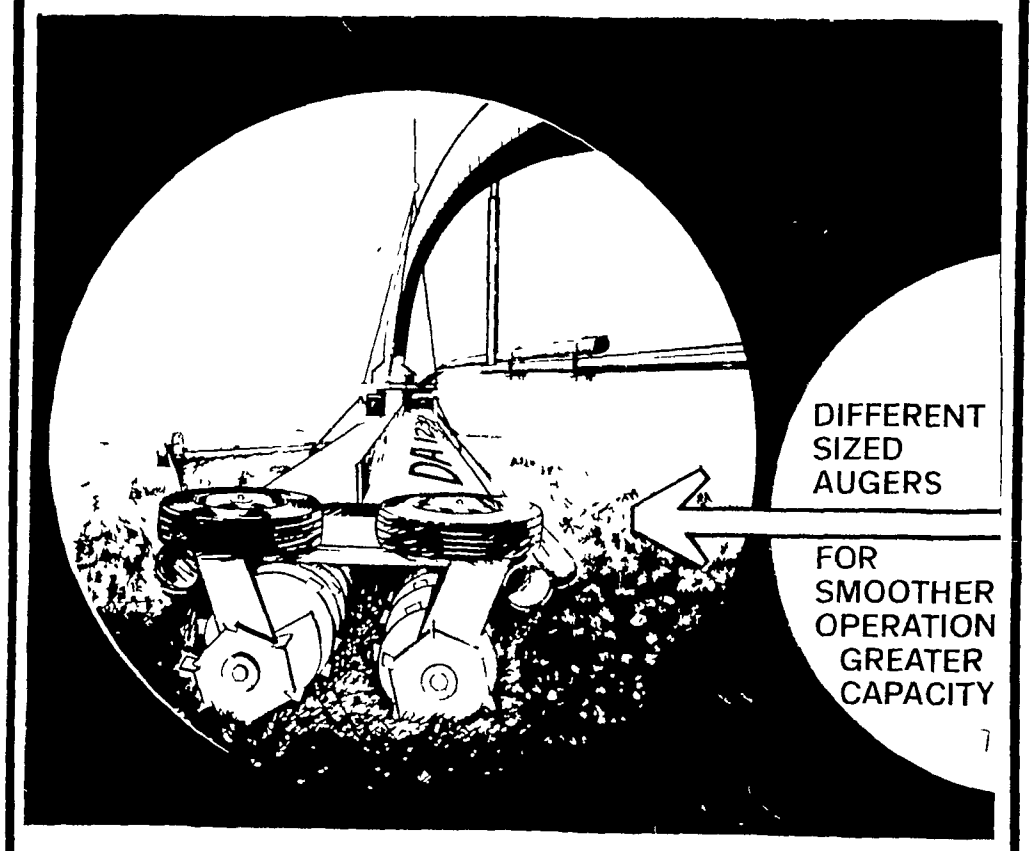
DA 1230

There's A Difference!

Here's a rugged new breed of silo unloader with a big difference from other machines — a difference that means better performance

The DA 1230 has double augers but more important they're **differential augers** The rear auger is larger than the front auger and the two augers turn at different speeds The result is up to 30% more wall pressure for smoother performance in all types of silage soft or frozen Silage flows into the impeller in an even stream — no slugs or pads of silage that can clog other machines and rob capacity The differential augers break up compressed silage to give you smoother operation and greater capacity You get Non Stop Feeding with the new DA 1230 unloader



DIFFERENT SIZED AUGERS

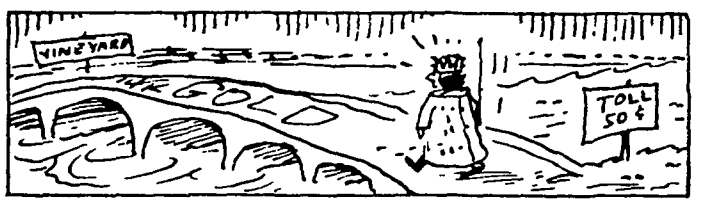
Lancaster Farming Photo

Lancaster mayor Richard Scott, center, received a model plow from Agway's chief executive officer Ronald N. Goddard in brief ceremonies Thursday at the Agway petroleum office on the Dillerville Road. Looking on is Mark Hess, who heads up local Agway operations. Goddard was here to visit the cooperative's facilities in the area, and to help observe Agway's tenth annual Community Appreciation Day.



According to a German tradition, Charlemagne's spirit crosses the Rhine on a golden bridge in seasons of plenty, to bless the vineyards and cornfields.

Heifers To Be Dedicated Sunday

Some sixty heifers will be dedicated during a special service at the John Cope Farm, Landisville Road, Sunday evening at 7:30 p.m.

The heifers are a portion of 90 from this area that will be leaving for Cameroon and Tanzania from the Harrisburg Airport on August 5th.

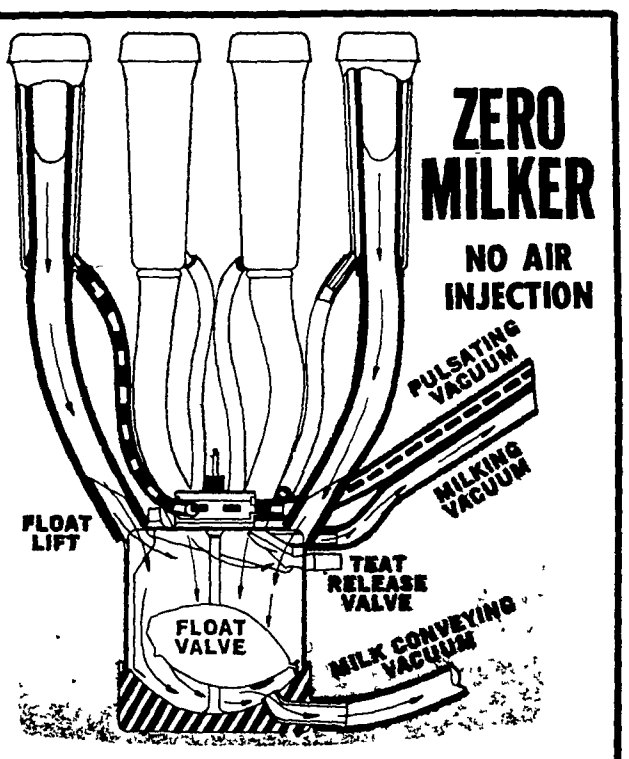
The animals are a part of a good will project sponosred by Manheim Church of the Brethren along with other congregations across the county.

It is hoped the bred heifers will produce calves for the people in the countries where they will be sent.

Committee chairman for the project in this area has been Clarence Keener, Sr., RD1, Manheim.

Inside Chuck Pot-Roast

An inside chuck pot-roast is the inside chuck muscle (eye) of the blade portion of the chuck, which lies directly next to the rib section. A boneless cut, it is made by removing the blade bones, featherbones, back bone and rib bones which surround it. Fat cover, if any, is thin. It often is tied into a roll. Since chuck is less tender than the beef loin or rib, this cut is most often prepared as a pot-roast. It is braised slowly in a small amount of liquid, covered, on top of the range or in the oven until tender, 3 to 4 hours. A variety of seasonings and braising liquids can be used. If the beef is of high quality, this cut can be prepared as a roast — cooked in an open roasting pan without the addition of liquid in a slow oven (325°F).



ATTENTION DAIRYMEN:

Did someone say you should put in a 2 inch or 3 inch milk line? Yes, because the conventional pipe lines carry milk, and the milking vacuum in same pipe. Your galvanized pipe only carried pulsation vacuum (the vacuum between shell and inflation.)

Oh, a larger milker line may help your milker, but if a slug of milk goes down a 2" line your vacuum drops, just like in a 1½" line, so before you scrap that old 1½" line, why not use that old 1½" line to transfer milk only, and install another 1½" stainless steel line to carry your milking vacuum, with no milk or liquid in this line you have free moving air, no drop in vacuum. Then use the new Zero pipeline unit with above, you have the best milker you can buy, no air injection needed, to slug milk up the hose.

Did you ever stop and think? Would you like that same air sucked through your drinking water.

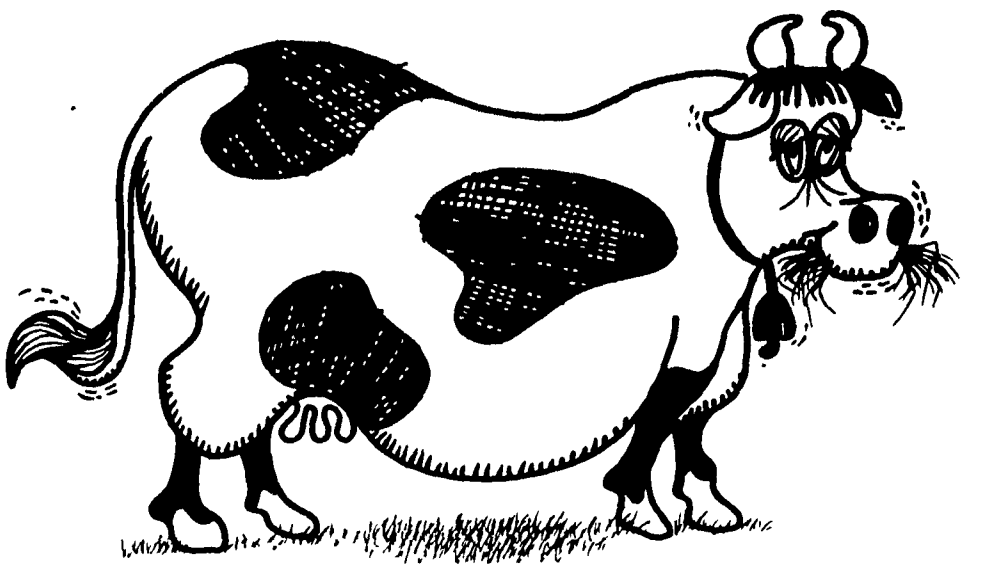
Complete blood tests are an important part of the Project 1870 work. This lab technician is counting the white cells in a blood sample taken from the herd of John Behrer, Spruce Creek, near State College. Behrer's herd is experiencing repeat breeding problems. Although the cows are anemic, this condition alone doesn't seem to be causing the repeat breeding. The Project 1870 group is trying to get at the root of Behrer's difficulties.



Why are some well-managed dairy herds productive, fertile and profitable, while others are plagued with milk fever, downer cows, anemia and breeding problems? Penn State's Project 1870, financed mainly by donations from the dairy industry, is trying to answer that question. Their work might help more cows to be as contented as this bucolic critter.

Working For

(Continued From Page 1)

receive from their veterinarians and extension specialists. Project 1870 members want to find out why discrepancies exist between laboratory findings and field experience.

Along with Guss and other members of the group, we visited two of the project herds, a healthy one and a herd with problems. Both were short drives from the Penn State campus. Driving to the problem herd, Guss said, "It's kind of unusual for extension people to get involved in a project like this. Usually, we take research findings to the farmers. Here, we've got people with practical field experience working on problems in the field to develop guidelines that are going to be used in the field. I think it's a good approach."

Dr. Richard Adams, a dairy science specialist at Penn State and another member of the research project, explained that they were trying to take into account all the factors on a farm that might affect cows. He said they were taking soil and water samples, feed and forage analyses and, most importantly, blood samples from cows in each herd.

In addition to Adams, Guss and this writer, three other project members went along that day to the farms. They were Dr. Jerry Jung, with the U.S. Pasture Research Laboratory at Penn State and a member of the university agronomy staff, and William Stout and David Belesky, agronomy graduate students. Stout and Belesky are preparing a research paper on the micronutrient findings turned up by the study. Stout has been with the project since its inception and expects to complete his doctoral requirements later this year.

As we pulled into the lane at the problem herd farm, Jung explained his role as an agronomist in the project. "Dairy farmers are moving more and more towards feeding just one or two crops to their animals," Jung said, "and this may be the cause of some of our problems. They've gone to less pasture, and some farmers feed little or no hay.

"These practices simplify the farmer's job of growing feed, but they complicate the task of putting together a balanced ration," Jung noted.

Not only are some farmers putting all their eggs into one basket, they might even be using bad eggs, seems to be his message.

"In the 60's," Jung explained, "agronomists were concerned with boosting the persistence and production in forage crops. We weren't concerned with the composition of the plants themselves, and now we think that might have been a mistake. Much of the alfalfa grown today, for example, is deficient in potassium. We need to do more work, too, on other micronutrients like zinc and magnesium. Penn State's leading the nation in research on these micronutrients in cow health."

John Behrer's was the first farm we visited. Behrer has 50 head of Holsteins with fertility problems. Blood tests have shown that Behrer's cows have hemoglobin counts some 22 percent lower than normal, and red blood cells counts as much as a third lower. He follows Penn State recommendations on feeding Behrer told the researchers that he tried also to follow recommended fertilizer levels for his cropland. Even so, he is having repeat breeding problems.

Some kind of mineral imbalance is apparently causing the infertility-anemia syndrome in Behrer's cows. Since he's been a part of Project 1870, the Spruce Creek dairyman has experienced some improvements in his herd health. The project is concentrating on the milk fever-downer cow syndrome as well as the infertility-anemia syndromex. A Project 1870 report on Behrer's herd says that the repeat breedings probably aren't a result of anemia, but doesn't say yet what is the cause.

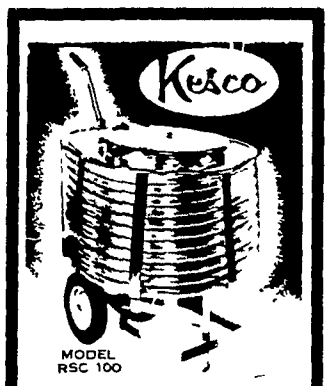
With the assistance of Mike Behrer, John's son, Guss drew blood samples from the necks of the cows in the herd. For the purpose of blood sampling, all cows in the study are divided into four stages of lactation, one-to-90 days, 91-to-180 days, 181-270 days and 271 days to dry. Equal numbers of animals are selected from each stage of lactation, and an attempt is made to take blood samples from the same animals at each bleeding. Animals removed from the herd are replaced in the bleeding schedule by an animal in the same stage of lactation.

Water on all the farms is tested, too, and good water, according to Guss, is the one thing all the model herds have in common. The water on Behrer's farm is a bit harder than normal, because it's spring water straight from the limestone soil, but it is pure.

From Behrer's farm, we went to the farm of Harold Lucas,

Dr. Jerry Jung, left, and Dr. Samuel Guss check out a hay sample at the farm of John Behrer. Behrer has one of the problem herds in Project 1870. Problem herds were carefully chosen so that only well-managed herds with problems are represented in the study.

TRY A CLASSIFIED AD



A MILKMOVER SYSTEM gets you out of the barn sooner-with more money in your pocket! It saves your lugging heavy pails of milk from barn to cooler

- HAS MORE MILK CAPACITY
- PERMITS FASTER MILKING
- ELIMINATES EXTRA HELP
- PROTECTS MILK QUALITY
- IS 100% SELF CLEANING
- HAS ELECTRIC CONTROLS
- FITS INTO ALL BARNS
- EASILY INSTALLED

Available thru your local dairy equipment dealer or call the factory collect to arrange for a free demonstration on your farm.

Working For

(Continued from Page 16)

another Holstein dairyman with 44 head. Lucas was in the process of adding on to his cow barn when we called on him. One of the first things a visitor sees is a spring fed pond between the house and the barn. It's filled with the same sparkling clear water that goes to the cows.

Like all the model herds in the study, the Lucas animals form a fairly steady population. One of the goals of the project was to find herds with low rates of turnover, under 28 percent, and Lucas falls well within that range. And, like all the herds in the project, both the model ones and those with problems. Lucas is on DHIA test.

Production in the Lucas herd averages a respectable 14,800 pounds of milk per year and 545 pounds of fat. He grows 90 acres of corn, 30 of oats and 50 acres of hay to feed his herd. Hay is fed free choice in the summer, and ten pounds per animal per day in the winter.

"I believe in feeding a mixed forage," Lucas told the group. "I like soybeans and dry grain, and I've always fed oats, even when I'm feeding high moisture corn." Lucas recently purchased a portable grinder-mixer so that can prepare his own feed. "I want to know exactly how it's mixed," he explained.

Like most of the Project 1870 animals, the Lucas herd is a family operation with 50 to 60 cows. Choosing the model herds was in itself quite a project, according to Dr. Richard Adams. "We went through 120 possible herds before we found the 15 we wanted to study," he said. "As a rule, the larger the herd, the more intensive the farming, and the more problems you're going to find."

Bellefonte dairyman Harold Lucas, left, examines some of the lab findings on his cow with Dr. Richard Adams, Project 1870's dairy science specialist. Lucas owns one of the model herds in the study.

"The trick now is to find another 10 problem herds," Adams added. If the problems in these herds can be studied in light of the findings from the model herds, perhaps some advances can be made in curing or preventing the health syndromes which can affect the herds of some of the best managers.

Money to study these problem herds, though, will not come from the state of federal government. It must come instead from the dairy industry, both Adams and Guss stressed. Agribusiness firms, largely through their trade association, Penn Ag Industries, have already poured some $7000 into the project. Breed organizations, AI cooperatives and some individuals have sent in contributions, too, but more money is needed, the researchers said, to carry on the work to its conclusion.

Dairymen who wish to contribute to the reasearch project can do so by sending a check directly to Dr. Robert Flipse, Room 229, Agricultural Administration Building, Pennsylvania State University, University Park, Pa. 16802. Checks should be made out to Penn State, and Marked "For Project 1870".

LANCASTER COUNTY DHIA MONTHLY REPORT

JUNE 1974

A Registered Holstein cow owned by Titus B. Stoner, 3207 Bowman Road, Landisville, completed the highest 305 day lactation. Trinket produced 26,942 pounds of milk, 882 pounds of butterfat with a 3.3 percent test. Second high lactation was completed by a Registered Holstein cow owned by Paul H. Hursh, RD4, Lititz. Jay produced 18,376 pounds of milk, 837 pounds of butterfat with a 4.6 percent test in 305 days.

The herd of Jacob S. Dienner, RD1, Gordonville, had the highest daily butterfat average. This herd of 29.0 Registered Holstein cows averaged 65.6 pounds of milk, 2.18 pounds of butterfat with a 3.3 percent test. The herd of Henry E. Kettering, RD3, Lititz, placed second. This herd of 49.1 Registered Holstein cows averaged 53.1 pounds of milk, 2.15 pounds of butterfat with a 4.0 percent test.

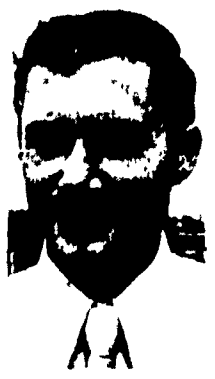
FACTS FOR DAIRYMEN



by
N. Alan Bair
Assistant
County
Agricultural
Agent

Summertime Mastitis

Severe mastitis outbreaks often occur during hot summer months as a result of heat stress on dairy cows.

Cows which are milking heavily simply lose resistance to mastitis causing organisms when they suffer the double burden of hard work and excessive heat and humidity.

In many cases it is advisable to bring the herd into the barn where there is adequate ventilation and protection from the sun and flies during the hottest part of the day. The dairyman who is most concerned about the comfort of his milk cows and does something about it will have healthier and more productive cows as a direct result.

Of course summertime mastitis can also be caused by the more "classic" methods such as improper feeding, careless and improper milking techniques, faulty milking equipment and dirty environment. Let's not aggravate these conditions with the additional summertime problem of cows in the farm pond and in pasture stream.

Good dairymen control the mastitis complex and keep other "management" diseases in check by administering a health dose of "cowmanship" into their management.

Pink Eye In Cattle

Infectious pink eye can be a serious, very troublesome problem in Pennsylvania cattle herds.

Dairy herds which receive regular fly treatment rarely develop serious pink eye problems, but pink eye can be quite serious in beef breeding herds and in dairy heifers on summer pasture.

Unfortunately, there is no way at present to vaccinate cattle against pink eye. Until recently the only means for control and treatment was regular fly control dusting or spraying antibiotics into infected eyes, and keeping cattle in a dark barn during bright sunny days.

In the past few years veterinarians have been injecting a cortesosteroid – antibiotic drug into the cattle eye membranes of early cases with 100 percent success.

Where pink eye breaks out in a herd, cattle should be moved through a chute and sprayed for flies, examined and treated every other day. Any delay starting pink eye treatment can assist the disease in getting well enough established so that it will remain in the herd for weeks and some cattle will come permanently blind as a result.

Brucellosis

In spite of all the press accounts of the comeback being made by brucellosis, the brucellosis picture in Pennsylvania and northeastern United States continues to be good, according to Dr. Samuel B. Guss, Extension veterinarian at Penn State.

Both the milk ring test of all herds producing milk and slaughter house blood test of up to 10,000 beef type cows per month are revealing incidence of practically no brucellosis in Pennsylvania cattle herds.

A program begun recently by the Pennsylvania Department of Agriculture to blood test swine at slaughter has revealed only two reactors of nearly three thousand swine tested.

The most important source of brucellosis for Pennsylvania cattle and swine herds is the purchase of new animals from out-of-state sources. Pennsylvania farmers who add new animals to their herds without having them retested for tuberculosis and brucellosis play Russian roulette with their herds.

Kinzer Track Hosts State, National Pulls

The Southeastern Tractor Pullers Association held their third pull of the season last Friday and Saturday night, with many local and state drivers competing for the prize money. Then on Wednesday and Thursday of this week, they held a meet sanctioned by the National Tractor Pullers Association, in which pullers from all over the country vied for shares of a $12,600 purse.

Results from Friday and Saturday, July 19 and 20, were:

5000-lb. Stock

1 - Tom Urmson, Transfer, Farmall 460; 2 - Paul Bedgar, Freeland, Md., Massey-Harriss 44; 3 - Ray Brubaker, Quarryville, A-C 219; 4 - Elvin Arment, Ephrata, Deutz 5506.

9000-lb. Stock

1 - Tim Stauffer, Ephrata, Deutz; 2 - Vernon Yoder, Christiana, 4000 John Deere; 3 - Jim Brubaker, Quarryville, A-C D21; 4 - Dave Frey, Millersville, 706 Farmall.

5000-lb. Super Stock

1 - Dale Smoker, Cochranville, A-C 180; 2 - Tom Urmson, Transfer, Farmall 460; Charles Welsh, Gap, Case 800; 4 - Curtis Stoltz, Lebanon, Leyland 384.

9000-lb. Super Stock

1 - Michael Wright, New Freedom, I-H 1066; 2 - Charles Snyder, Andreas, Ford 8600; 3 - Alvin Martin, Akron, A-C D21; 4 - Marlin Brubaker, Quarryville, A-C D21.

12,000-lb. Stock

1 - E. M. Stauffer, New Holland, Deutz 8006; 2 - Jim Brubaker, Quarryville, A.C. D21.

12,000-lb. Super Stock

1 - Michael Wright, New Freedom, I-H 1066; 2 - Harry Greist, Coatesville, I-H 1456; 3 - Alvin Martin, Akron, A-C D21; 4 - Tom Bedgar, Freeland, Md., John Deere 4430.

5000-lb. Modified

1 - Keener Pulling Team, Manheim, Farmall F-20; 2 - Coleman Wheatley, Laurel, Del., M-H 44, with 440 Dodge engine; 3 - George Bradford, Jr., Helecon, Md., Oliver 77 with 396 Chevrolet; 4 - Elwood Flowers, Manheim, Farmall M.

7000-lb. Super Stock

1 - Charles Snyder, Andrea, Ford 8600; 2 - Marlin Brubaker, Quarryville, A-C D21; 3 - E. M. Stauffer, New Holland, Deutz 8005; 4 - Mark Stauffer, Ephrata, Deutz 9006.

7000-lb. Stock

1 - E. M. Stauffer, New Holland, Deutz 8006; 2 - Vernon Yoder, Christiana, John Deere 4000; 3 - Jim Brubaker, Quarryville, A-C D19; 4 - Elvin Arment, Ephrata, Deutz 5506.

9000-lb. Open

1 - Michael Wright, New Freedom, I-H 1066; 2 - Richard Zimmerman, Mt. Joy, Cockshutt with two 440 Dodge engines; 3 - Lester Landis, Lititz, M-H 55; 4 - Alvin Martin, Akron, A-C D21

Elwood Flowers, a Manheim farm equipment dealer, piloted his classy rig against some of the toughest competition in the country last Wednesday night at the Southeastern Tractor Pullers Association Kinzer track.

Lebanon Fair Schedule Set

The 17th annual Lebanon Area Fair will be held from Aug. 12 to Aug. 16 at at the Expo Grounds, two miles south of Lebanon off the Cornwall Road.

The four day fair will include many 4-H projects and contests. Other forms of farm and home related exhibits will also be presented.

There will be numerous events being judged including livestock, foods, vegetables and farm crops, poultry, and dairy products.

The following is the schedule for the fair:

Sunday, Aug. 11-12 to 2 p.m., enter all rabbits and poultry; 3 p.m. judge rabbits and poultry; 4-5 p.m., 6 p.m., judge carcass swine.

Monday, Aug. 12 - 10 a.m. to 3 p.m., enter all exhibits; 1 p.m., judge home economics exhibits; 4 p.m., judge flowers and poultry; 6 p.m., judge dog obedience contest, pets with fur and without fur, and judge carcass beef and market veal; 7:30 p.m., the Frankie Dee Show.

Tuesday, Aug. 13 - 9 a.m. judge FFA dairy type show, champion FFA dairy fit and show contest, judge 4-H dairy type show, champion 4-H fit and show contest, judge vegetables and farm crops.

Also judge agriculture, conservation, engineering projects, entomology, forestry, frozen foods, geology, photograph, stamp collecting; 1:30 p.m., judge table top and group exhibits; 7 p.m., state sanctioned tractor pulling contest.

Wednesday, Aug. 14 - 9 a.m., 4-H light horse and pony show, judge carcass beef and swine; 9:30 a.m., judge 4-H swine, judge FFA swine; 1 p.m., judge sheep, judge 4-H and FFA market steers, judge breeding steers; 7:30 p.m., the Blackwell Brothers.

Thursday, Aug. 15 - 9 a.m., judge open dairy; 1 p.m., 4-H and FFA tractor driving contest; 2 p.m. to 7 p.m., chicken barbecue, 8 p.m., 4-H talent contest, open square dance with Jack Harstal.

Friday, Aug. 16 - 9 a.m., 4-H demonstrational contest, and 4-H and FFA livestock judging contest; 10:30 a.m., 4-H and FFA dairy judging contest; 7:30 p.m., the Dottie West Show; 9 p.m., all exhibits released.

Carnation Genetics paid a whopping $6000 for this 17-month open heifer last month at the National Holstein Convention Invitational Sale in Mulaga Hill, N.J. The man who sold her was M. Robert Young, a Lancaster businessman who has a part-time heifer operation.

Area Heifer Goes for $6000 at National Sale

What was reportedly the highest-priced open heifer sold at last month's National Holstein Convention invitational sale came from the herd of Lancaster businessmen M. Robert Young. The 17-month-old animal went to Carnation Genetics in Washington state, where she'll become one of the cows in their ova transfer work.

In ova transfer operations, fertilized eggs are removed from genetically superior cows and placed in the wombs of more ordinary animals. It's theoretically possible to get 12 offspring from one mating with ova transfer, although a more usual number is three or less.

Mid-Hill-Acres Elev Joel is a daughter of Round Oak Rag Apple Elevation. Her seven nearest dams' best records average 23,470 pounds of milk with 935 pounds of fat for a four percent test.

Young said he had bought the heifer only last August, and was quite pleased with her showing at the sale. He added that he deals only in heifers, and said that he tries to find the best animals he can. He runs his operation in a barn and 15 acres of pasture rented from Edwin Keener, an Elizabethtown RD1 farmer.

Young noted that he had to credit a major part of any success he might have with his heifer operation to Charles Myers of the Black and White Holstein Sales Barn. Myers helps Young select the animals to go into the herd of dairy hopefuls.

June Base Milk Price Drops 69¢ From May

The June base milk price for Federal Market Order 4 was $8.99, the excess price was $6.23 and the butterfat differential was 7-cents for each point above or below 3.5 percent, according to Andrew A. Marvin, Ephrata, field representative for the Inter-State Milk Producers Cooperative.

The June uniform price for base milk decreased 69 cents from the previous month. Excess milk showed a decrease of 61 cents.

In comparison to June levels one year ago base milk was up $1.46 and excess up 59 cents per cwt.

The weighted average price for the market was increased $1.28 above June 1973.

A total of 382.8 million pounds of producer milk was pooled in June of which 55.8 percent was sold as Class I, showing a decrease of 1.7 percent of deliveries made in May, and a 4.8 percent decrease under June a year ago. 7777 Order No. 4 producers provided 12.7 million pounds per day to dealers during June, averaging 1641 pounds per day per farm. Total value of producer milk was set at $32,954,975.94 for the month.

A member of the Red Rose Baby Beef and Lamb 4-H Club, Steve exercises his black angus steer which is his project for this summer.

Active 4-Her and Livestock Judge

(Continued from Page 1)

has taken steer and market lamb projects under the FFA guidance.

Two years ago at the Pa. Farm Show, Steve exhibited the Grand Champion Single and Grand Champion Pen of market wether lambs which were sold for $1300.

Presently, Steve has two steers for his project and will be getting his market in September.

Steve is a member of the Red Rose Baby Beef and Lamb Club which is locally under the direction of Carl Longenecker and Paul Good. He is also a member of the Lancaster County Livestock Judging Team which is coached by Max Smith, County Agent.

Steve explained that his parents had a lot to do with his joining the judging team.

"My parents encouraged me to join," he said "and since my older brother had been a member, I decided to give it a try."

Steve hasn't decided yet what he will do following graduation. "I'd like to stay in farming but it takes money," he explained.

Fall will bring with it one of Steve's favorite pasttimes that of small game and deer hunting, but for the summer Steve will be working on the farm that has been planted with tobacco, corn and crops plus a Holstein dairy herd.

LEXINGTON (KY.) HERALD REPORTED UNIVERSITY OF KENTUCKY PROFESSOR DR. STANDORD SMITH AND GRADUATE STUDENT STEVE WINKLE, WORKING UNDER AMERICAN CANCER SOCIETY GRANT, HAVE CONDUCTED TESTS PRODUCING A 53.4 PER CENT REMISSION OF SKIN CANCER. EXPERIMENTS INVOLVE USE OF NUCLEIC ACID TAKEN FROM HEALTHY ANIMALS TO TREAT THOSE WITH SKIN CANCER.

Lancaster Farming Photos

Unloading wagons of hay and straw is only one of the many chores that Steve helps out with on his parent's farm at RD3, Manheim.

Original Ecologist

Advances in agricultural science—including such ecology-related practices as soil conservation, erosion control and wildlife preservation—have boosted production Food for 50 million more people is now being provided, using no more land than was required 35 years ago In fact, if agricultural products were produced on the same per acre rate as in the 1930's, some 292 million acres of land (now put to other uses including natural environment areas) would have to be put back under plow

Nutrena C.L.S.

Now the liquid supplement with Controlled Release is here...

Nutrena Controlled Release CLS, the advanced liquid supplement, has two important advantages for cattlemen and dairymen compared with a conventional urea-molasses supplement:

Because it releases urea's protein-building nitrogen more slowly in the rumen, it makes better use of its productive power.

In the same way it provides an extra margin of safety from urea toxicity which is important in self-feeding applications

Nutrena Controlled Release CLS U.S. Patent No. 3,677,767

Lancaster Farming Photos

Barbara Aaron, a perennial winner in local Jersey competition, took grand champion breed honors in Tuesday's Lancaster County 4-H Dairy Show with her two-year-old cow. Matthew Arrowsmith, who's barely as tall as his senior calf, took reserve honors.

A pair of E-Town Ayrshires, both from the Masonic Homes herd, came in first and second in breed competition at this week's Lancaster County 4-H Dairy Show. Penny Halblieb showed the grand champion, while Russell Wilson had the reserve animal.

4-H Dairy, Holstein

[Continued from Page 1

Peach Bottom, showed both the reserve junior champion and reserve senior champion. Ellen also was champion senior showman, and her sister Sandy was reserve champion junior showman. Reserve senior showman honors went to Maureen Hough, Peach Bottom.

Grand Champion Ayrshire was a three-year-old owned by Penny Halblieb and Masonic Homes, Elizabethtown, which was also senior champion. Reserve breed champion went to Russell Wilson, Elizabethtown, who showed a two-year-old. Junior breed champion was a junior yearling shown by Rhonda Shope, Elizabethtown, and reserve junior breed champion was a junior calf shown by Warren Schmuck, Peach Bottom.

Daryl Martin, Stevens, was selected as champion senior showman for the Ayrshire breed, and he went on to be named grand champion showman of all the colored breeds. His brother Dennis was junior champion Ayrshire showman, and he, too, became junior champion of all colored breeds. Karen Schmuck was reserve champion junior showman for Ayrshires and for all colored breeds and her brother Warren was reserve senior champion Ayrshires. Reserve senior champion for all colored breeds was Linda Witmer, Willow Street.

In Holstein competition on Wednesday, Lynn Royer, Lancaster, took senior and grand champion honors with his aged cow, and Linda Kauffman, Elizabethtown, showed the reserve senior and reserve grand, also an aged cow.

Linda's first place senior yearling was named junior champion and Sandra Frey, Lancaster, owned the reserve junior champion, a senior calf.

In showmanship competition, Karen Martin, East Earl, was selected junior champion, and Jane Stoltzfus, Gap, was reserve junior champion. Charlene Landis, Lancaster, received the award for being the best first-year showman.

Senior champion showman was Lynn Royer, with Linda Kauffman being named reserve senior champion. They both went on to be named senior Champion and reserve senior champion, respectively, of all breeds.

In junior showmanship, Karen Martin was overall champion, and Dennis Martin, Stevens, was reserve overall champion.

An added feature of the show on Tuesday was a calf dressing contest, which featured calves dressed as cartoon characters. Winner was a Jersey owned by Ellen

[Continued on Page 24]

J. Mowery Frey, Jr., had a few words to say after being named premiere exhibitor and premiere breeder for the 1974 Lancaster District Holstein Show on Thursday. Two of the little Freys, Sandra and John, proudly displayed the two banners that will be added to the family's trophy collection.

New Idea's Superpickers

1-row Superpicker... low cost way to harvest your corn

Hour after hour, acre after acre, you'll get non-stop plug-free picking in all kinds of corn with a 1-row Superpicker.

The big, hungry gathering unit picks clean, even in down and tangled corn. Flexi-Finger presser wheels on the long, 6-roll husking bed deliver clean, whole ears to your wagon even in the heaviest yields.

Before you buy, take a good look at this Superpicker . . . it combines the capacity you want with the non-stop performance you need for fast, clean, profitable corn harvesting.

4-H Dairy

(Continued from Page 23)

Schmuck, Peach Bottom, dressed for the occasion as Donald Duck. Second place went to a Guernsey calf, posing as Milky Mouse. There was a Brown Swiss masquerading as Dumbo the elephant, and an Ayrshire which was dressed like Popeye, complete with a can of spinach.

Judges for the type competition were Winslow Towle, Newton Square, who judged the colored breeds, and Paul King, Delta, who judged Holsteins. Fitting judge for both days was Robert Kessler, associate county agent in Franklin County and showmanship judge was Glenn Shirk, county agent in Chester County.

At the Lancaster District Holstein Show on Thursday, Maurice Welk of Quarryville RD2 surprised himself by walking off with the grand champion ribbon in his first year of competition. His nephew, John Welk of Pequea RD1, was the man who led the five-year-old black-and-white beauty into the showring.

Reserve champion honors went to Russell Kline, Reinholds, a 19-year-old who's well-known both in state and local Holstein competition. His four-year-old reserve animal started out as an FFA project at Ephrata High School.

Klein also showed a junior bull to captured grand champion bull honors. The reserve bull prize went to Clarence and Earl Stauffer, Ephrata RD1.

The junior champion Holstein of the show was exhibited by Linda Kauffman, daughter of Mr. and Mrs. Robert Kauffman, Penn Spring Farms, Elizabethtown RD1. The reserve junior champion was owned by Arlen Keener, Elizabethtown RD1.

The top dairy herd of the show went to the Kauffman's Penn Spring Farms while Nate Stoltzfus, Gap, had the reserve champion herd.

The top dam and daughter was exhibited also by Stoltzfus while Trout Spring Farm, operated by John E. Kreider, Lancaster, had the reserve champion pair.

The three best females competition was taken by Blossomelle Holsteins, operated by the Herbert Royer family, 2025 Oregon Pike.

Clarence and Earl Stauffer also had the champion Holstein in the over 100,000 pounds of milk production class.

Sunny Craft Farms, operated by Earl Stauffer, had the top produce of dam, followed by the entry of Jay Melvin Brandt, Hershey RD1.

Winners in the various classes at yesterday's show were:

Junior Bull Calf, Russel L. Kline, Reinholds; senior bull calf, S.H. Grimm, Willow Street, and M.E. Miller Strasburg; senior yearling bull, Clarence and Earl Stauffer, Ephrata RD1.

Junior calf, Donna M. Akers, Quarryville RD1; intermediate calf, Arlen Keener, Elizabethtown RD1; senior calf, Sandra Joan Frey, 401 Beaver Valley Pike; junior yearling John C. Welk, Pequea.

Senior yearling, Linda Kauffman, Elizabethtown RD1, dry three and four-year-old, Lynn H. Royer, 2025 Oregon Pike; dry cow over five years, Clarence and Earl Stauffer; two-year-old, Penn Spring Farm, Elizabethtown; Three-year-old, J. Mowery Frey and son; four-year-old, Russel L. Kline; aged cows, Maurice F. Welk, Quarryville.

Susan Witmer showed her brother Mark's cow to the Guernsey championship on Tuesday during the Lancaster County 4-H Dairy Show.

Reserve honors went to Diane Crider, right, who is also reigning Lancaster County Dairy Princess.

The Witmers of Willow Street dominated Brown Swiss competition at this year's Lancaster County 4-H Dairy Show held Tuesday and Wednesday at the Guernsey Sales Barn. The grand champion honors went to Robert Witmer, while Linda Sue Witmer took the reserve champion prize. Both animals were two-year-old cows.

AGWAY

When you run feed trials on 1800 pigs a year, you learn a lot about nutrition

Ten million hogs are being grown and finished on feeds developed at a 168-acre research farm in America's pork country. And Agway, one of the cooperatives supporting the research, is sharing the benefits with Eastern farmers through proven feeds and programs.

At the Cooperative Swine Research Farm near Lexington, Illinois, a controlled-environment farrowing house and nursery is used for farrowing, lactation, and early-growth studies. One hundred and eight sows, each farrowing twice a year, produce about 1800 experimental animals.

Studies in general are aimed at producing better feeds at least-cost formulations. It was at Lexington, for instance, that Agway demonstrated a 7% to 8% improvement in rate of gain and feed efficiency by pelleting the total swine ration. It was at Lexington that Agway Squealer Pellets were developed and proved.

At Lexington, the search for better ways to grow hogs goes on. There are feeding trials aimed at doing the best possible job on high-performance crossbreds . . . trials directed at finding the best possible utilization of feed ingredients available in the East . . . trials on artificial insemination, energy and protein levels, protein quality, feed additives, early weaning, mineral requirements, and more.

Put the benefits of cooperative swine research to work on your farm. Call Agway today and get in touch with an Enterprise salesman.

. . . And that's what makes the Agway Swine Enterprise Program a profitable one for you

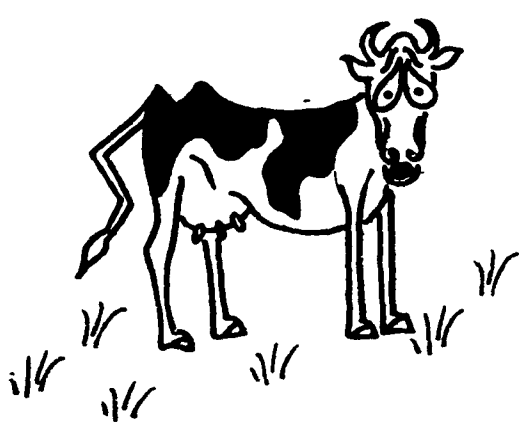
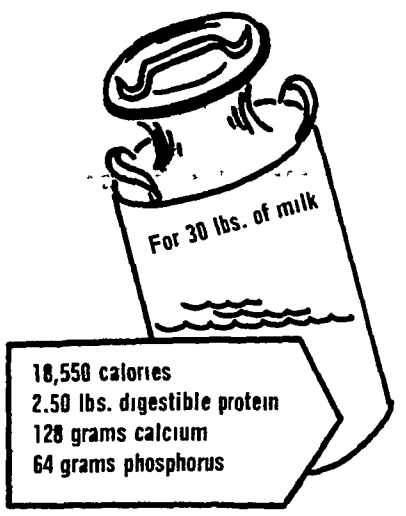
KEY TO PROFIT
AGRI KING, inc.
PERSONALIZED FEEDING PROGRAMS

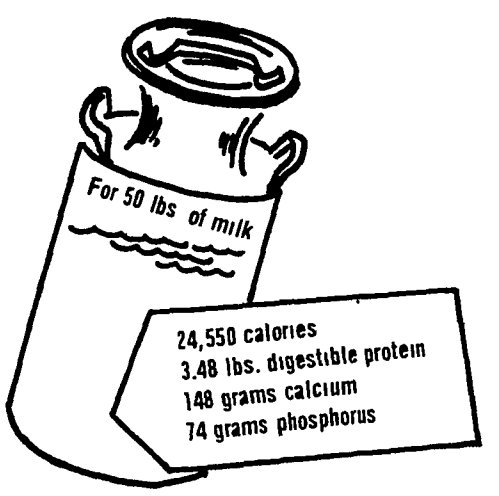
FULTON, ILL.



Sure wish the Boss would let Agri-King test that stuff and balance my ration right so I could show him what I can really produce.

I'd like to get 50 lbs. of milk but I'll be durned if I know how much of each feed they need.





Be durned if we know either, but if we test for calcium, phosphorus, and protein, we can find out.

Your Neighbor:

Jacob Deiner from Gordonville started on the Agri-King feeding program in November of 1972.

JACOB SAYS — "I didn't want more milk, I wanted to get rid of some problems. I thought 50 lb. of milk was good enough for any dairy farmer.

"As my problems disappeared my milk production came up a little at a time until I peaked at 70 lb. of milk per cow per day for almost 2 months. In November 1972 my rolling herd average was 14,271 lb. In November 1973 my rolling herd average was 17,167 lb., and the cows are now ahead of last year. Even with the increased feed costs of today, my net profit is over $1.00 more per cow per day than a year ago."

"But these cows are the Lord's. He has only intrusted them to us, and our responsibility is to take care of them to the best of our ability."

Lancaster Residents Host Fresh Air Visitors

by
Sally Bair
Farm Feature Writer

Lancaster County has better air, better people and is a lot quieter than New York City. This will come as no surprise to residents of the County, but the observations were made by youngsters visiting local farms through the Fresh Air program.

They all seemed to be having a great time with their host families, and in the words of one boy, the big advantage of the program is "just to give the kids a break in the summer".

Mr. and Mrs. Christ Hess, Pequea RD1, are hosting 15-year-old Neal Council for his eighth summer. Neal's home is in the Bronx, and he says he likes "everything" about visiting at the Hess's. His family lives in a single family home in New York and they have a yard and garden, so he has had the experience of watching green things grow, but he said in the summer at home he mostly "sits around, plays or goes to the pool". He sometimes rides his bicycle at the park close by his home.

At Creek Knoll Farm, however, he helps milk the cows and even loads straw and hay. One of his proudest accomplishments is learning to drive a tractor. Raymond Hess, 23, says that each year Neal becomes more and more of a help on the farm.

His opinion of Lancaster County in contrast to New York City is that there is "better air and better people" here. "The people," he said, "are kinder and nicer."

Part of Neal's experiences at the Hess farm include playing with their pet lambs, relaxing on a swing attached to a high tree and fishing in the Pequea Creek. He also enjoys sleeping under the stars with the Hess's youngest son, Park, 13, but added that after he read about the bear dragging off a local boy's sleeping bag while camping in the west he's not so sure he wants to sleep outside anymore.

Neal has ten brothers and sisters in New York, so he fits in quite well with the Hess family in which there are 11 children. Mrs. Hess says they have had fresh air children for nine years, and in one year had three children. She said, "We really enjoy having Neal here." In fact, Neal is such a part of the family, that each year at Christmas the Hess's send him a train ticket to come and spend the holidays with them. Neal's father is a truck driver.

Mrs. Hess's son and daughter-in-law are hosting two fresh air children. Mr. and Mrs. Abram Hess, Conestoga RD1 have opened their home to Frances and Elizabeth Santana, Spanish sisters from Brooklyn. Elizabeth, who is 11, has been coming to the Hess home for six years and Frances, 9, is here for her fifth year. Mrs. Hess recalls that the first year Elizabeth came, they hosted another girl, too, and the two girls had not been to school so could not speak English very well. Elizabeth spoke the better of the two, so she acted as interpreter. Communicating proved to be quite interesting.

The Abram Hess family has been hosting Fresh Air children for 12 years and Mrs. Hess said they became interested through friends who hosted children. There are four

Neal and Raymond show off a newborn calf which they had just brought in from the meadow.

Packing eggs is a real family affair and the visitors pitch in and help.

Hess children: Wayne, 11; Gerald, 10; Brian, 6; and Vicky, 2½. Although the two visitors were shy at first, it became evident very soon that there is a lot of activity in the Hess household, and quite a lot of happy chattering is contributed by Frances and Elizabeth.

Both girls agreed that the best thing about living on the farm is the "fresh air - in New York it is all polluted". They

Frances and Elizabeth Santana enjoy playing with the pet lamb, Midnight, along with the youngest Hess, Vicky.

live in a single family dwelling, and have a small garden and "roses and apple trees". Elizabeth added that they do "have trees and grass in New York". They have one brother and five sisters, and their father is a carpenter.

Abram Hess, who is in partnership with is father and a brother, Christ, Jr., has 25,000 laying hens, 75 sows and 400 market hogs. Frances said, "I never saw so many chickens." The girls demonstrated how they help to pack the eggs as they come off the belt, and as the tour of the farm continued, Frances said with some wonder, "They have more pigs here than at home."

Apparently there is some difference in the food here, and

Neal shows how he's learning to drive tractor on the Hess Farm.

both girls agreed that they don't like red beets. Barbecued steak is a favorite. They helped to pick beans and dig potatoes.

The girls said they don't have time to write to the Hess family when they're at home, saying that they help "clean house" and make "mud cakes". Two of the Hess sons are learning to play the organ, and the girls' eyes lit up when they said they, too, are learning to play this summer. Elizabeth said they can play "Mary Had a Little Lamb" and the "Wedding Song".

Mrs. Hess said her family "looks forward to having the children visit in the summer, and they get along real well". She said, "We include them as one of the family, and they do just what we do. The most important thing in life is to give time and love to children as the Bible verse Matthew 18 suggests."

This year the girls won a goldfish at the Conestoga Fire Company Festival and are looking forward to taking it home. Last year it was three toads that went home with them.

The Jay E. Landis family, Lancaster RD6, is hosting Joel and Loy Chu, whose home is in the Bronx. The Landis' have a

Lancaster Residents

(Continued from Page 34)

long record of hosting Fresh Air children - since 1960. Loy has spent the last nine summers here and Joel the last six.

Mrs. Landis is very enthusiastic about the program, saying, "We get as much of an education as they do. We learn a lot about city life." Both boys very obviously feel at home in the Landis family with their three sons - Bill, 20, Greg, 18 and Bruce 15.

Joel, 12, is slightly more outspoken than his 15-year-old brother. He is very engaging when he talks about the "big difference" between life here in Lancaster and life in New York. "The difference is in the people and attitudes. The people are more friendly and more well-mannered," he says.

Loy is a little more reserved in his judgement. He says, "It's not as noisy here," but added, "Everybody has their problems." The boys agreed that there is a tendency among city folk to think country life is "easy", but when asked if there's a lot of complaining about the cost of food, he said, "If the farmers have a hard job they should get the money they deserve for their products." Loy says when he gets a job he'll live in New York - "I don't like to do all the work on a farm."

But Joel just as emphatically said, "I'd like to live on a farm." Mrs. Landis added that Joel really "loves animals".

The Chu brothers' father is a chef in a Chinese restaurant. They said their mother does all the cooking at home, but they agreed that there's a big difference in the food. Loy said, "It's more natural here - it's more hardy." Joel says one trouble with food in the city is that it's stored for a while before they buy it. Mrs. Landis said, "They both eat anything." Joel said his favorite is "red beet eggs", something he'd never eaten in New York.

Each year, Mrs. Landis says, her family tries to plan a special outing for their visitors. Last year Joel went along deep-sea fishing off the coast of Delaware. He was very enthusiastic about the experience, particularly because he caught three fish and didn't get seasick.

This year they will be going to a Phillies baseball game, and Loy has already gone to Hershey Park where he rode the roller coaster five times! Sleeping out was a new experience for them, but their spirits got dampened when the rain came pouring down at four in the morning. They said they have learned to identify some birds on the farm, including owls and a rather unorthodox mockingbird which insists on singing at three a.m.

Both boys enjoy playing basketball with the family, and they particularly like to play miniature golf and pitch and putt. The Landis family milks about 40 Registered Holsteins, and they farm the 120 acres of their farm plus another 70 acres of rented land. The visiting boys help to bring in the cows and feed them, and on the day after their arrival they helped bale hay. Jay related that the first year Joel came, he went into the barn where all the cows were switching their tails and said, "Who are those cows waving at?" Jay explained they were waving at the new person in the barn.

This week both boys were busily helping clean up the animals which were to be shown in the Lancaster County Holstein show, and Joel's hope was to lead a heifer himself.

Loy had an eye-opening experience this year. He helped put new layers in their pens in a Penn Manor FFA project. He said he learned to carry four chickens in each hand, but it was one job he's not too anxious to do again too soon. "It was different," he said.

The Chu family, which consists of Loy and Joel and two sisters live now in a cooperative apartment housing project. There are play areas nearby and a park. Loy says when they're home they mostly "go out, watch TV, go to the movies or go to the beaches".

Each year between eight and nine hundred young people come to Lancaster County through the Fresh Air Fund, according to Mrs. John Buckwalter, local administrator. However, she added, "literally hundreds of youngsters are turned away each year because of lack of suitable homes for them to visit."

It's obvious from the comments of the five young people interviewed that the visit has a beneficial effect on their outlook, even if it does nothing more than "give them a break". Not all the visiting youngsters live on farms for the summer, but those that do gain some of the obvious rewards that seem to come with country living.

Those of us who enjoy country life in Lancaster County would certainly agree that there's no better life anywhere. Perhaps next year even more homes and farms could be opened up so that the "Good life, Lancaster County style" can be shared with more youngsters from the city.

Area Farmers Aids For Lewis Campaign

Drew Lewis, Republican gubernatorial candidate, announced the formation of the Agricultural for Lewis-Lee Committee to be co-chaired by two Lancaster County farmers.

Amos Funk of Millersville will head Lewis' agricultural platform group. While Ivan Yost of RD1, Christiana will direct Lewis' volunteer campaign efforts among farm groups.

Funk is a veteran farmer long prominent in statewide agricultural and soil conservation activities and Yost was named the state's outstanding young farmer of the year by the Pa. Jaycees.

Lewis' committee has planned five platform hearings throughout the state, the first of which is to be held in Lancaster on Monday, August 5th.

Toastmasters Celebrate 50th Year

The Toastmasters International, a non-profit educational organization is celebrating its' 50th Anniversary this year.

The organization which provides a communication and leadership development program, has over 63,000 members that belong to more than 3,000 clubs in the United States and Canada along with 40 other countries.

Toastmaster's Clubs in the Lancaster Area sponsor a Speaker's Bureau which makes speakers available to various functions and organizations.

The speakers present a variety of interesting and informative talks which can be geared to the program desired.

Anyone interested in knowing more about the Toastmasters Organization can write to Box 180, RD6, Lancaster, Pa. 17603.

LADIES HAVE YOU HEARD?

By Doris Thomas, Extension Home Economist

Reach for a Peach

Reach for a peach! It's summer and now is the best time to do it.

Choose peaches that are fairly firm or that are becaming a trifle soft. Skin color between the red areas should be yellow or at least cream-colored.

Avoid very firm or hard peaches with a distinct green color. They are probably immature and won't ripen properly. Also avoid very soft fruits. These are probably overripe.

Don't buy peaches with very large flattened bruises (they'll have areas of discolored flesh underneath) or peaches with any sign of decay. Decay starts as a pale tan spot which expands in a circle and gradually turns darker.

If you buy peaches that are just a little too firm for immediate eating, you can let them ripen at room temperature. Refrigeration will slow the ripening process. Peaches that are not ripe will keep in the refrigerator for about a week. After a week they will begin to shrivel.

Here is a recipe for a sumptuous dessert,

Fresh Peach Cinnamon Sundaes

8 fresh peach halves, peeled and pitted
1 cup sugar
1 cup water
1 tablespoon lemon juice
2 tablespoons red cinnamon candies
2 tablespoons cornstarch

Heat sugar, water, and lemon juice to boiling. Reduce heat to simmering, add peach halves, and cook 10 minutes. Remove peaches and place on individual serving dishes, cut side up. Add cinnamon candies to syrup and simmer until candies dissolve. Add cinnamon candies to syrup and simmer until candies dissolve. Add cornstarch; continue to cook until thickened. Cool syrup until lukewarm. To serve: Place a scoop of vanilla ice cream in each peach half and top with warm syrup.

More Economical To Sew School Clothes

When it comes to school clothes for your children, this year, more than ever, it's more economical to sew clothes than to buy them.

Major pattern companies offer a large selection of patterns for children's clothes, both boys' and girls'. They are comfortable and designed with children's personalities in mind.

When you select patterns and fabrics for children's clothes, keep in mind the versatility and appeal of coordinating garments, just as you do in your own wardrobes and use fewer patterns, too.

Look for simple princess-style dresses with or without sleeves, jumpers, skirts, pants with bibs, for girls. For boys, you can sew T-shirts and pants.

Suitable fabrics for children's clothes include corduroy, cotton duck, chino, polyester knits, washable suede cloth and washable satins and velveteen for dress-up. For outer wear, look for vinyls, meltons, fleeces, tweeds, washable fake furs and fuzzy piles.

Harvest Vegetables Early

Pick fruits and vegetables in the early morning when it is cool rather than late afternoon. Be careful about bruising produce when picking it. Gather vegetables at the proper stage of maturity because cooling can't restore the quality of a product that's overmature or partially spoiled.

If planning to can or freeze some vegetables or fruit, it's wise to make as many preparations as possible ahead of time - before you harvest. For example, have the jars washed or the freezer containers assembled. This kind of organization will reduce the time from picking until processing and insure you of better quality foods. A rule for high quality produce is to harvest no more than you can process within two hours after picking. And you reduce the problem of having to cool the produce if you follow this rule.

Ida's Notebook

Ida Risser

Year's ago when we first planted blueberries my husband really looked forward to "HIS" bushes bearing their first berries. For the first few years he picked the handful or two which they gave and we all enjoyed them. In fact, his parents tell the story of their very first big blueberry which was carefully carried into the kitchen, laid on a cutting board and sliced in half with a knife to be shared.

But now that they are giving us gallons each picking, they are "Ours" and guess who has the honor of picking by the hour? All kidding aside I'm really glad we have enough to freeze, sell, make pies, sauce for ice cream and still have plenty to put on our morning cereal or eat with short cake.

xxx

One beautiful afternoon the month our 4-H Community Club traveled to Longwood Gardens and were treated to many lovely sights which we had missed on previous visits.

We saw the Italian Water Garden, took a woodland path along a lake, saw the waterfalls and heard the chimes in the Tower. Then we rested a bit and saw 8,000 gallons of water per minute pour from the "Eye of Water". The tropical waterlilies were in full bloom too.

Previously we visited the conservatories and saw orchids, ferns and tropical plants such as coffee, black pepper, vanilla and a banana tree.

This time we noticed espoliered fruit or a peach tree growing on a trellis. This method allows more plants in a smaller space. This is a nearby and worthwhile attraction for Lancaster countians.

xxx

Philip and Cindy have spent a lot of time preparing demonstrations to be given on the County level. Cindy made a fruit salad plate and Philip showed the proper use of tools to make a handyman project.

They were rewarded by being picked to go to Capitol Region 4-H Day in York County.

Farm Women Societies

Society 2

Farm Women Society 2 held a meeting on July 20 at the cabin of Mrs. Charles Plasterer. Twenty members and 2 guests were present.

Luella Lowe and Anna Catwell served as the hostesses.

The meeting opened with the members singing "America the Beautiful." Eva Keener read Psalms 21 and a poem for devotions.

Members responded to roll call by naming their favorite picnic spots.

Elsie Witmer, president presided at the business meeting.

May Holser gave a report on the trip to Michigan that four members took part in.

The Society decided to have the turkey barbecue stand at the Manheim Farm Show in October.

A household product party was held following the meeting.

The next meeting will be August 10th at Ruhl's Picnic Grove. Each members is asked to bring a hot and cold dish.

Society 3

Farm Women Society 3 entertained members and their families at a picnic at Walters Grove near Hopeland, Sunday, July 21.

The Silver Haired members will be entertained at the Timbers for a luncheon and matinee on Wednesday, July 24th.

Plans were made to conduct a food stand at the Ephrata Fair Sept. 24-28.

Members and friends will take a bus trip to Ocean City, N.J. August 24 leaving Salem Lutheran Church at 6 a.m.

Society 3 will sponsor a medical clinic in Honduras and contributed $500. to this project. The money will be used to teach a Honduran girl the fundamentals of health care for the people in the village where she will serve. It will also provide her with some equipment and an initial supply of medicines. The contribution is being made through Miss Linda Stuber a member of Society 3 who is doing volunteer service at the Pinalya Clinic in Honduras under the United Church Board for World Ministries.

The next meeting will be at the home of Mrs. William Gerhart, Schoeneck. The 4-H Cooking and Sewing Clubs from the area will be guests. Miss Karen Hackman, Selinsgrove will be the guest speaker and tell of her year in Brazil as an exchange student. This will be Sat. August 17 at 12:30.

Society 7

Farm Women Society 7 met July 10th at Hickory Farms in the Penney's Mall at Park City Mall. Forty members and friends toured the store and enjoyed tasting many of the items they sell.

A short business meeting was held after the tour.

The county picnic will be August 7th 12:00 noon at the Lampeter Park. Please bring a covered dish, drinks will be provided.

No meeting will be held in August with the next meeting Sept. 14 2:00 p.m. at the home of Mrs. Charles Lichty. Mrs. Marie Futer, Paradise will demonstrate decoupage.

Society 8

Farm Women's Society 8 gathered in Sico Park, Mount Joy for family night July 20th. at 6:30 P.M. Covered dishes were brought by the members. Seventeen guests and fifteen members were present. Mrs. Lewis Bixler, Vice President was in charge. Mr. Martin Miller led in singing one song for the opening. Mrs. Warren Heisey was in charge of devotions. Delicious food was enjoyed by all.

The Sunshine Committee reported that Mrs. Elizabeth Witmer has been in the General Hospital for several weeks. Paul Witman, husband of Arline Witman is in St. Joseph's Hospital. Anna Chapman sent a note of appreciation for cards sent to her while she was unable to attend the meetings.

Mr. Gerald Lestz was the guest speaker. He is affiliated with the Lancaster Newspapers, is Editor of the Lancaster Motorist and is the Publisher of Baer's Almanac. He recalled many sayings and items published in the Almanac since it's beginning.

Hostesses Dorothy Sumpman, Phyllis Endslow, Isabel Endslow, Minnie Kolp and Emma Staats provided meat and punch for the group.

There are some seats available for reservation on the bus going to Atlantic City on August 20th. Please advise Mrs. Grace Bixler if you are interested.

The next meeting will be held at the home of Mrs. Margaret Heisey. The special subject will be a talk on Candles.

Society 10

Farm Women Society 10 held a meeting at the home of Mrs. John McGrann with the president Mrs. Jay Habecker presiding.

Mr. Albert Einolf presented slides depicting past and present buildings and places of historical interest in Lancaster County.

The Society will make a contribution to the Arthritis Foundation.

The September meeting is scheduled to be held at the home of Mrs. Abram Miller with Mrs. Miller and Mrs. Raymond Northeimer serving as hostesses.

Society 15

At the monthly meeting of Farm Women Society 15, on Thursday afternoon, July 18th, the group voted to give $200 to be used for the Jaycees camp for retarded children, the project selected by the Lancaster County Farm Women.

The meeting was held at the Union Presbyterian Church with hostesses, Mary Joyce Walton, Isabel Ferree, Emily Reath and Nancy Shoemaker.

Members responded to roll call by quoting something patriotic. Opening devotions were given by Mary Joyce Walton. Minutes were read by Alma Maule, treasurer's report by Mary Howelt.

Mary Joyce Walton gave a report of her attendance to the Southern Lancaster County Bicentennial Association meeting. A letter was also read from the same

(Continued from Page 38)

and a committee was appointed to work on a project. Janet Frantz of the ways and means committee asked if the group would help sell food at the Jaycees festival in Strasburg on August 3. She also reminded members of the supper dish sale at the October meeting. She was given a vote of commendation for her committees' fine work on ways and means.

Mary Boyce reported on the sunshine work done and said Anna Hershey, Dorthy Harvey, Emily Reath, Nancy Boyce and Mary Bently had birthdays in July.

Mrs. Kathryn Wagner of the trip committee reported a successful trip to Nova Scotia. She announced a luncheon at Willow Valley for the September meeting after which all will go to Park City where they will visit the Hickory Farms Store.

Society 15 along with Society 16 will entertain guests at Conestoga View on August 15.

The County Executive meeting picnic will be held August 7 at the Lampeter Fair Grounds.

It was voted to give a love gift to the convalescing son of one of the members.

Mrs. Nancy Shoemaker conducted a Lancaster County Historical Quiz.

The next meeting will be a family picnic to be held at Huffnagle Park in Quarryville August 15th at 6:00 p.m.

Society 19

Farm Women Society 19 held its July meeting recently at the Arthur F. Landis summer cottage, Perry County in the form of a family picnic. Mr. Landis barbecued chicken for the group. An afternoon of fellowship was enjoyed by all.

Members of the Society plan a trip to Longwood Gardens July 27 for the evening program.

The Society is scheduled to provide an evening of entertainment and refreshments August 20 at the Harrisburg State Hospital.

Society 24

Farm Women Society 24 met recently at the home of Mrs. Lloyd Wenger, Leola.

Mrs. Glenn Shultz, president, conducted the meeting. Mrs. Wenger read Psalms 111 for devotions.

Members donated $100 to the County project and $20 to the Leola Ambulance Association.

Karen Snyder, Conestoga Valley and Marilyn Good, Garden Spot received the Society's Annual Home Economics Awards. Ray Martin received the Vo-Ag award.

Plans to attend the County picnic on August 7 were discussed. August 25-27 are the dates for Homemakers Camp at Swatara.

A program was given by a Leola Ambulance Crew who gave an informative demonstration on their services and explained how to call for the ambulance.

The next meeting will be July 31 at 6:30 p.m. at Mervin and Ruth Hoober Farm, RD1, New Holland. A family picnic is planned.

Thought For Food

Eggplant Aromatic

Slice 1 medium eggplant and sprinkle with salt and pepper. Saute in hot butter or salad oil until lightly browned on both sides. Peel and slice 2 medium-sized onions. Slice ½ pound of cheese. Place alternate slices of eggplant, sliced onion and sliced cheese in casserole. Add 2 teaspoons aromatic bitters to two 8-oz. cans tomato sauce, and additional salt, if needed. Pour over ingredients in casserole and bake in a moderate oven (375°F) for 20 minutes. Yields six servings.

ORGANIC LIVING

By

Robert Rodale

Mexican Food Has Health Advantages

At last there's a new food sensation that's not just good-tasting, but good for us, too. I'm talking about Mexican foods, the most popular of the ethnic foods that have started to catch on in the United States in recent years.

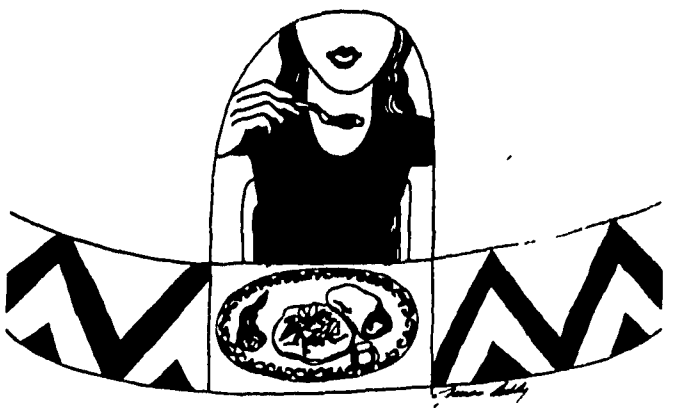
Enchiladas, tacos, posole, guacomole, jalopeno bean dip and other southwestern specialties are exciting the palates of folks who've never ventured south of the Mason-Dixon Line. And at the same time they're adding solid nutritional value to our snacking and dining-out habits.

People in Mexico, Arizona, Texas and New Mexico have lived on those foods for hundreds of years, through necessity. They created a healthful diet, high in vitamins, minerals and natural food fiber, but low in refined flour, sugar and other health-wreckers. The emphasis is on whole ground corn, vegetables, beans and rice with very little rich or fatty meat.

Chili pepper is a central ingredient in Mexican cookery. A member of the nightshade family, like potatoes and tomatoes, chili was used in Indian and Spanish folk medicine as a remedy for inflamed kidneys, diarrhea, chills, heart pains, internal tumors and many other ailments.

New Mexicans who eat large amounts of chili have very low heart disease and cancer death rates. Medical experts aren't sure just why that is, but Dr. Lora M. Shields, a biologist at Highlands University in New Mexico, has theorized that "the action of chili peppers consumed often and liberally may rid the body of enough fats to lower the consumer's blood fat level and reduce his chances of having a heart attack."

Scientists DO know that the peppers are a fabulously concentrated course of certain nutrients. One ounce of ground dried chili can contain as high as 20,000 units of



vitamin A. And fresh pods even more. It's estimated that a typical serving of some Mexican food can supply more than 100,000 units of vitamin A! Chili peppers are also an excellent source of vitamin C and calcium.

If fiery foods are not for you, don't dispair. Chili peppers are available in varying degrees of strength, and researchers have found no difference in nutritional values between the mildest and the hottest.

The red chili is also an effective natural food preservative. It retards the oxidation of meat and fats and delays rancidity. Chicken, beef, and other frozen meat dishes can be stored longer when they contain chili.

Corn is another staple food of the Southwest. It's not a completed food in itself, mainly because it's low in niacin and lysine, an amino acid needed to provide high quality protein. Yet whole civilizations have survived eating little else. Now we know how.

The secret is in the way the corn is prepared and served. Southwestern people have traditionally heated the dried corn in an alkaline, limewater solution, before making it into tortillas (the Mexican equivalent of our bread). The lime treatment makes lysine and other nutrients more available, as well as increasing the calcium content as much as twentyfold.

"Without alkali processing of corn, there would be a considerable degree of malnutrition in societies where corn is the major part of the diet," three University of Pennsylvania researchers reported recently in the journal Science.

The early originators of Mexican cuisine also had the wisdom to combine corn with beans, which contain the amino acids that former lacks. The garbanzo bean was a particularly good choice. One cup provides protein equal to 4½ ounces of lean steak.

Wheather you're just beginning to sample the excitement of Mexican food at restaurants, or already involved in preparing your own fresh dishes at home, a few words of advice are in order:

-When you're buying ready-made tortillas, be certain they're made of corn, not white flour. Flour tortillas taste like paste, and their nutritional value is close to zero. That is also something to keep in mind when you're ordering in restaurants.

-Proceed carefully when you try new chili dishes if you're a novice. Taste a little bit. The chili should be pleasantly warm in the mouth. If it's too hot, drink a little milk or add some honey. If you're dealing with red chili and it's too much for you, thin it down with tomato juice or sauce.

-Be cautious in eating anything containing chili seeds. If they appear, the food is HOT.

-In the kitchen, never handle chili without rubber gloves if you've got any cuts on your hands. Never put your hands anywhere near your face when you're preparing chili dishes. Chili can't injure, but it can cause considerable discomfort if it gets into the eye.

Here's a recipe you can try that will intorduce your family to the delights of homemade Mexican cuisine:

Mexican Pan-Bread

1 onion, chopped
1 clove garlic, minced
1 tablespoon oil
½ cup dried kidney beans, cooked
¾ cup bean liquid (reserved from cooking the beans)
1 egg, beaten
1 cup corn meal
1 tablespoon chili powder
½ teaspoon cumin, ground
½ teaspoon salt
1-3 cup grated cheese

In a heavy-bottom skillet, saute onion and garlic in oil. In a medium-sized mixing bowl, mix together all the remaining ingredients, except the cheese. Pour this mixture into the skillet and stir to mix well. Sprinkle grated cheese on top and bake in preheated 350 degree oven for about 10 minutes. Yields four servings.

xxx

The creators of Mexican cuisine got along fine without chemical preservatives, flavoring and coloring. You can too, after reading the 48-page booklet, "Make It With Natural Foods." It's available for fifty cents from Robert Rodale, Organic Living, in care of this newspaper. Plase ask for the booklet by name and allow at least three weeks for delivery.

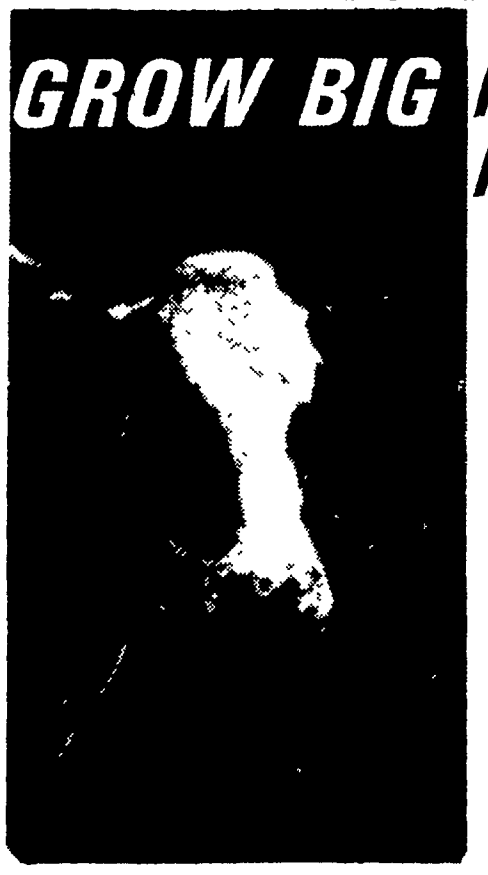
GROW BIG HEIFERS FAST at low cost with... PURINA HEIFER CHOW



More and more local dairymen are proving that a small extra investment in heifer feeding can pay off when heifers freshen and begin contributing to the milk check.

And research has proved that heifers which produce well in the first lactation continue to be high producers over a longer milking life than average cows.

Purina* Heifer Chow* has been developed to help you grow big heifers fast, conveniently and at low cost. Heifer Chow is a palatable coarse 14 per cent protein ration, fortified with vitamins and minerals to stimulate fast, solid heifer growth.

To build low-cost growth, you need feed only 3 pounds of Heifer Chow per heifer per day if your legume forages are of good quality. For best results, start your heifers on the Purina heifer growing program at six months of age until 90 days before freshening when they'll be fed on the basis of their condition and on the quality of your forage.

Drop in soon and pick up a copy of our Purina Heifer Growing Program folder. It explains the program to follow for fast-growing, early-freshening heifers at low cost.

PURINA CHOWS®

Safe Canning of Meat and Poultry

Good meat, good equipment, and good methods - that combination is a "must" to insure safe and wholesome home-canned meats and poultry, the Animal and Plant Health Inspection Service (APHIS) says.

Good meat - because the better the quality at the start, the better the end result.

Good equipment - because equipment not functioning properly could result in an underprocessed product.

Good methods - because shortcuts in canning meat and poultry may not be sufficient to kill dangerous bacteria.

Killing bacteria is what canning is all about. The heating process is used to destroy disease and spoilage-causing organisms that may be present in raw food material. Immediately sealing the container prevents recontamination of the food, thereby preserving it.

No matter what kind of meat you choose to can, APHIS suggests that you start with a good, clean product that has been properly refrigerated (under 40 degrees F.) to prevent spoliage.

Refrigerate meat and poultry immediately after purchase and can them within a few days. Any product that is to be kept longer than a few days before canning should be frozen at temperatures of 0 degrees F. or lower.

At canning time, frozen meat and poultry should be thawed in the refrigerator at 40 degrees F. or lower until most of the ice crystals have disappeared. Rinse poultry well, inside and out, in cold water after thawing, then drain. Keep all meat and poultry clean and cool during preparation, and handle the meat as rapidly as possible during the canning process.

Meat and poultry must be processed and held at 240 degrees F. for sufficient time to kill all bacteria that can cause spoilage or food poisoning - mainly Clostridium botulinum. Follow processing times recommended by the manufacturer of your pressure canner.

Formed in the absence of air - as in a sealed container - toxin from these deadly bacteria causes botulism, the most severe form of food poisoning. Its occurance is most often traced to improper canning at home - by not using a high enough temperature, or not cooking food long enough, or both.

The most important piece of equipment for safety's sake is canning meat and poultry is a pressure canner in good working condition.

Before using the canner, wash the kettle and its cover with a hot, soapy cloth; do not put a cover with a dial gauge in water. Inspect the petcock and safety value openings to be sure they are clear. Have the pressure gauge checked before each canning season, or several times a year if you home-can frequently. Your dealer or the manufacturer should have information on checking the accuracy of a dial gauge.

Clean the working area to be used and be sure that all other equipment is clean and in good working order, too. The thermometer should be accurate; glass jars should be free of cracks and chips; lids and bands should be free of dents and rust, and rubber rings should be the right size to fit the jars.

If you use cans, wash them in clean, hot soapy water, rinse, and drain them upside down. Do not wash lids of cans because washing may damage gaskets. Wipe them with a clean damp cloth when you are ready to put them on the cans.

Remember, also, to adjust the can sealer according to manufacturer's directions before you use it in canning. Test it by sealing a can containing a small amount of water and submerging it in boiling water for a few seconds. If air bubbles rise from around the can, the seal is not tight and the sealer should be readjusted.

It is extremely important to follow tested methods of canning meat and poultry in the home, and whatever tested instructions you use, APHIS suggests that you follow them exactly. Don't subsititute, shortcut, or guess.

Here are some additional safety tips to remember about canning meat and poultry at home:

- Do not depend on aspirin, canning powders, or other chemical preservatives to prevent spoilage without heat. These might be harmful in themselves. Remember, too, that salt does not act as a preservative in canned meat.

- Do not use excessively fat meat or poultry. After packing containers, wipe the tops clean before closing. Fat left on rims may prevent a tight seal on the container.

- Keep precooked meat and poultry hot while packing it. The temperature of food packed hot should be at least 170 degrees F, at the time jars are closed or cans are sealed.

- Never open a jar to refill after processing if loss of liquid occurs. This would let in bacteria and meat would have to be processed again.

- DON'T TASTE suspect foods.

DON'T TASTE OR SERVE any home canned meat and poultry foods before heating them for 10 minutes at 212° degrees F. (boiling point).

Growing Degree Days

In Lancaster the average temperature for the week was 72 degrees which was 2 degrees less than the normal. Growing degree days for crops that start at 40 degrees totaled 2649 which was 85 days over the average.

Growing degree days for crops starting at 50 degrees totaled 1575 which was 61 days over the normal.

Rainfall for the week was .77 inches with a total of 14.21 inches recorded from April 1, which was .64 inches off the normal.

Mt. Joy Community 4-H Club Holds Annual Round-up

by: Melissa Piper
Associate Editor

Leading Club

Mt. Joy Community 4-H Club has been a leader in Home Economics projects for many years and has recently become an innovator of a myriad of new and different 4-H projects.

Along with the usual selection of cooking and sewing projects, members are now able to participate in crocheting knitting, macrame and cake decorating clubs.

Macrame Tie

Macrame is a craft that incorporates knot tying into pocketbooks, belts, chockers, pillows and even bottle covers.

The Mt. Joy Macrame Club is now in its third year with Mrs. Sue Heinaman as instructor. The girls are first asked to make samples following patterns and then are free to choose a project that interests them.

Many of the girls made belts and bracelets; however one especially interested member made a tie for her father.

Knitting and Crocheting

The Knitting and Crocheting Clubs are under the direction of Katherine Darrenkamp. Mrs. Darenkamp explained that she had bought a yarn shop in Mt. Joy and was asked to teach the club members.

Her efforts gain much praise as her students displayed beautiful assortment of articles from afghans to animals. Sixteens members participated in the knitting and crocheting class and created such an interest that already many are waiting to take the project next year.

A Lot of Icing

Perhaps one of the most interesting and time consuming projects is the Cake Decorating. The Mt. Joy Cake Decorating Club is the first one in Lancaster County and was begun by Mrs. Roy Sauder.

"I took a course in cake decorating at the YMCA," Mrs. Sauder explained and after teaching at the Kraybill school, I decided to teach a 4-H Club."

The girls in the cake decorating club have all had several years of 4-H cooking experience and over the past few weeks have learned to properly ice a cake and make decorations such as scrolls and roses.

Round-up

Wednesday evening the Club held its annual Round-up at St. Mark's Lutheran Church in Mt. Joy. Imagination ruled the event with members and leaders participating in original skits on cooking and a fashion show.

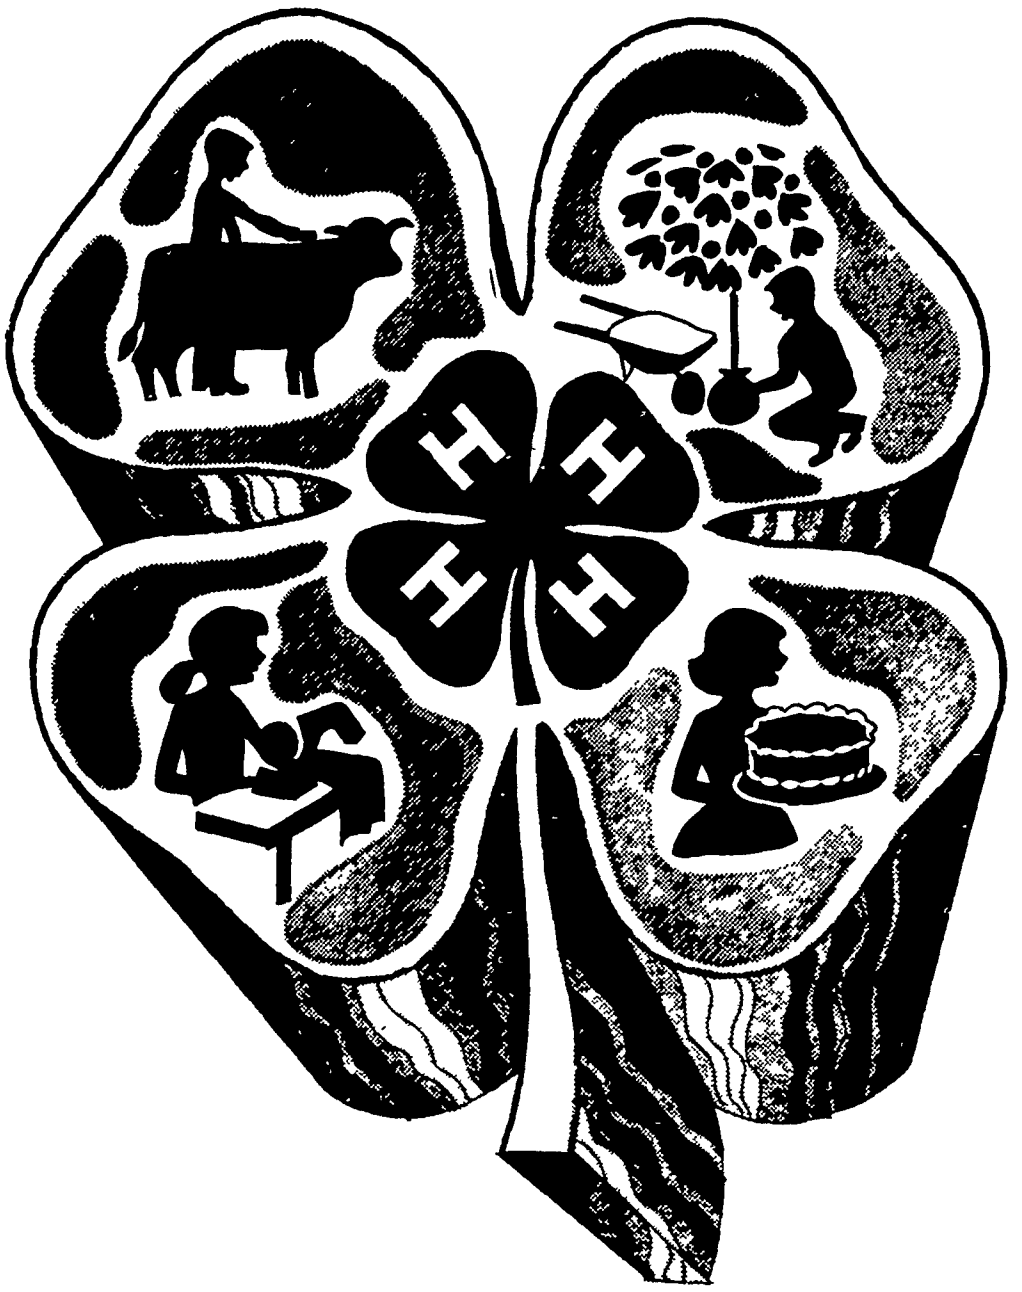
Tables overflowing with oatmeal cookies, tote bags, knitted scarves, crocehted hats and macarame items lined the fellowship room. Nearly 200 parents, members and friends came to view the work of 160 4-H members and many dedicated leaders.

Miss Anne Hinkle, Assistant Home Economist, gave a slide presentation on 4-H awareness and explained that 4-H has come a long way from the original farming and home economics projects.

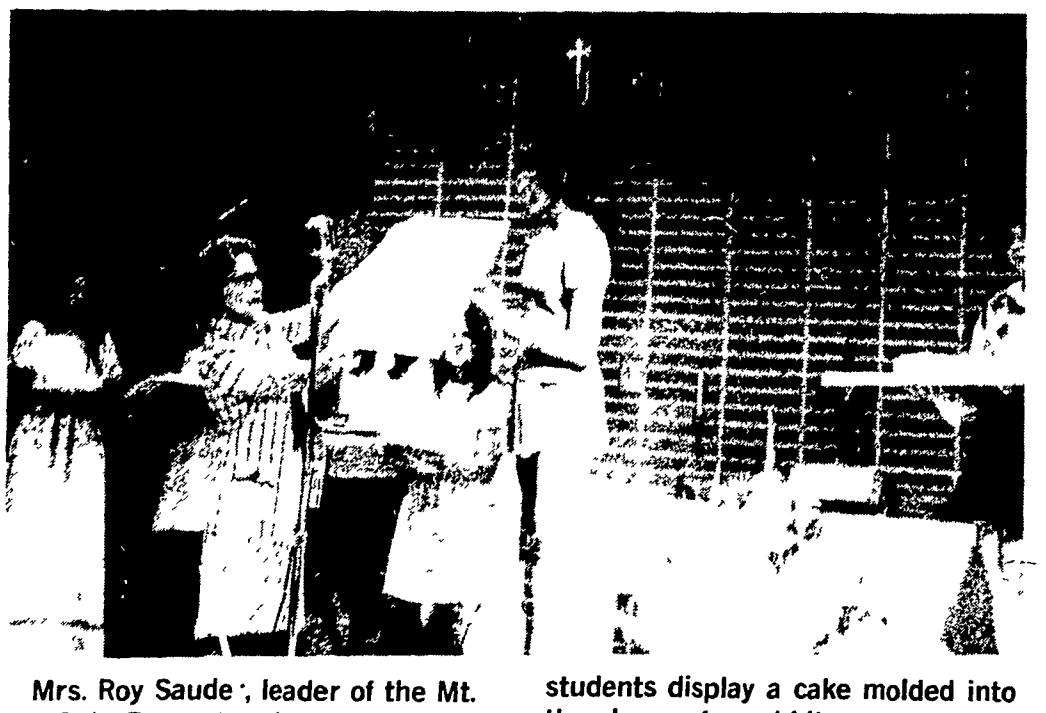
"4-H is not limited to pre-planned projects," she explained "today, if any one has an interest and is willing to share some time with youth, a new club can be arranged."

Mt. Joy is certainly an example of club where many interested people have donated their time and efforts to helping youth learn unique skills and hobbies.

Much credit goes to all the leaders and especially Mrs. Ruth Nissley, who was the co-ordinating leaders for the Community Club.



The first year cooking club members impressed the audience with their know how on cooking brownies in an original skit. The Club included the only boy member.



Mrs. Roy Sauder, leader of the Mt. Joy Cake Decorators helps one of her students display a cake molded into the shape of a rabbit.

York County 4-H NEWS

York Co. 4-H Livestock Judges

The York County 4-H Livestock Judging Contest was held at the Warrington Green Farms, Wellsville, owned by Dr. & Mrs. George Kushner. The contest facilities were made ready by George Dutrey, manager of Warrington Green Farms. There were nine counties present with 75 4-H members participating.

The winners of the Junior contest were Lisa Dobrosky, RD2 Glen Rock with a score of 283 points out of a possible 300 points. Tim Beck, RD2 Seven Valleys was ninth place with a score of 266 points.

The winning team of the contest was York with 1205 points composed of Nat Sheffer, RD3 Hanover; Terry Dixon, RD1 Hellam Br., York; and Kathy Sunday, RD1 York.

Nat Sheffer was 4th place in beef cattle judging and Terry Dixon was 5th. Kathy Sunday was 5th place in sheep judging. Nat Sheffer was 3rd high individual in the contest with a score of 405 points. Terry Dixon was 4th with 403 points and Kathy Sunday was 10th with 397 points.

Thought For Food

Tuna-Vegetable Melange Salad

Cook 1 package (10 oz.) frozen mixed vegetables and 1 package (10 oz.) frozen cauliflower according to package directions. Drain and chill. In a bowl, combine mixed vegetables, cauliflower, 1 cup thinly sliced celery and ¼ cup finely chopped onion; set aside. Mix 6 tablespoons salad oil, 3 tablespoons lemon juice, 2 tablespoons Worcestershire sauce, 1¼ teaspoons salt, ¼ teaspoon sugar and 1/16 teaspoon hot pepper sauce. Pour over vegetable mixture. Cover and refrigerate one hour. Just before serving add 2 cans (7 oz. each) tuna fish, drained and chunked. Arrange vegetables and tuna as desired on large lettuce lined platter. Yields six portions.

A Dependent?

A merchant was brought before the Internal Revenue Service and asked how he ended up with one more dependent than he really had He answered: "After all these years of paying taxes, can't I list the government as a dependent?"

Study Hunter Safety By Mail

Parents of children who will be securing their first hunting license for the 1974-75 hunting season will be interested to know that though the cooperative efforts of the Pennsylvania Game Commission and Penn State University, a correspondence course on Hunter Safety Education has been developed.

The course was planned to aid and suppliment the instruction the young hunter will receive when completing the mandatory hunter-safety program presently administered by the Pennsylvania Game Commission. Citizens of 18 of our states and four Canadian provinces, having similar mandatory hunter-safety programs as Pennsylvania, will find the course to be of value to their young and first-time hunters.

The course is broader, however, than most literature on the subject of hunter-safety as the topics of hunter-land owner relations, survival, archery, hunting ethics, respect for land and wildlife, and knowledge of sporting arms and ammunition are also discussed.

The seven lesson course may be secured by writing to Box 5,000, University Park, Pennsylvania 16802. Request Hunter Safety, and enclose your check in the amount of $4.00 payable to Penn State University. A course copy will be sent by return mail.

It was once believed in England that mashed hyacinth roots in white wine would prevent the growth of hair.

Holsteins Classified

Harold G. and Donald L. Bollinger, Willow Maple Farm, Newmanstown reported that his registered herd of Holsteins were classified for body conformation on July 16.

The scoring was done by an official classifier of the Holstein - Fresian Association.

Including animals preciously scored, Bollinger's herd received 4 very goods and 25 good pluses and 15 good scores.

Antique Buggies At Morgan Horse Show

On Friday and Saturday evenings, August 16 and 17, a colorful spectacle will take place at the Devon Horse Show Grounds in Devon, Pa. There will be a parade of antique buggies - many fifty, seventy-five, and even one hundred years old - around the show ring. The popular event, called Cavalcade Americana, is one of the highlights of the 3 day long Morgan Horse Show and Country Fair that opens Thursday, August 15.

Included in the procession will be vintage models such as a Victoria town carriage, umbrella top lady's phaeton, and basket stanhope that dates back to the turn of the century. All have been flawlessly restored to their original splendor. The drivers and passengers will be dressed in costumes to match the period of the buggies. Some will wear Edwardian dress suits with top hats. Others will be attired in formal Victorian wardrobes.

Pulling the carriages will be America's first native breed of horse - the mighty Morgan. This spirited animal has a proud springy step and high crested neck that makes him a joy to behold. He is noted for his versatility, stamina and gentleness. Over 400 entries will be competing for $5,000 in prizes. In addition to Cavalcade Americana, there will be 105 different events including riding, driving and jumping classes. Larry Ferrari, well known television organist, will provide musical accompaniment.

Many other attractions are planned for the entire family. There will be a midway with booths, games and rides, an oldfashioned country store, arts and crafts exhibits, magic show, flea market, prizes and refreshments. Big Bird of Sesame Street fame and a pocket lady laden with gifts will be on hand to greet the children.

Tickets are priced at $1.50, and children under 12 will be admitted free when accompanied by an adult. Hours are from 9 a.m. to 11 p.m. The 19th annual Mid-Atlantic Morgan Horse Show and Country Fair is sponsored by the Exton-Frazer Rotary Club for the benefit of local fire companies and youth organizations.

National Farm Safety Week

The National Safety Council wants farmers and ranchers to learn their ABC's. Not the alphabet, but the "ABC's of Avoiding Falls," this year's theme for the 31st annual National Farm Safety Week.

The National Safety Council and the U.S. Department of Agriculture co-sponsor the event, proclaimed by President Nixon for the week of July 25-31.

The ABC's, Alertness, Balance and Care, should serve, according to the National Safety Council, to remind farmers and ranchers to take preventative measurers to keep falling accidents from happening. A few of these measurers might be: keep extra riders, especially children, off and away from farm machinery; keep walks, steps and other pathways clear; choose footwear with nonskid soles; and put away tools and equipment after use.

Because falls rank second to motor vehicles as a cause of accidental death and because falls were responsible for nearly a third of the injuries reported in recent state farm accidents surveys, the National Safety Council has chosen to spotlight "avoiding falls" for the second year in a row. Falls cost farmers and ranchers over $2 billion last year.

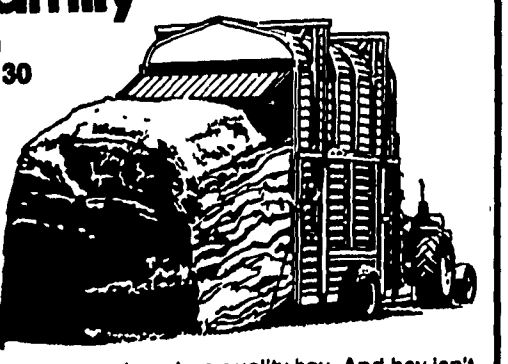
National Farm Safety Week began in 1944 to strike back at the accident losses impairing war-time food and fiber production. Since then, it has served as one week out of each year to provide the public with information regarding accident problems in agricultural communities and to emphasize ways these accidents can be avoided.

American Viewpoints

What we obtain too cheap, we esteem too lightly; it is dearness only that gives everything its value.
—Thomas Paine

When the labor is all in the family

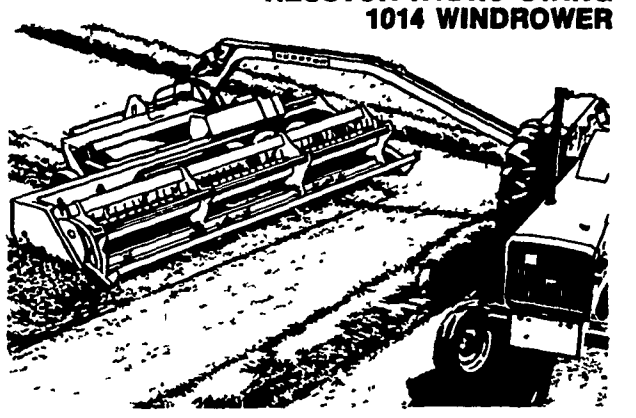
HESSTON StakHand 30



Here's the one-man way to put up quality hay. And hay isn't the only crop you can handle with the HESSTON StakHand® 30. Stover stacks can turn a residue crop into valuable feed, too. StakHand hay or stover stacks resist winds and rains to eliminate the need for taxable storage structures. And these are just a few of many reasons why you should consider a complete StakHand system. With a StakHand, StakMover and StakFeeder®, one man can handle hay from field to feeding . . . and never leave his tractor seat. See us right away for all the details

Pull a fast one -

HESSTON HYDRO SWING 1014 WINDROWER



From its innovative Hydro Swing!™ tongue to the hydrostatically driven header, the new Hesston 1014 pull-type is all business...yet agile as a cat. Yes, the 1014 lets you position the header on the go for partial or full cuts, cut square corners without skips, and maneuver around road or field obstructions with split second precision It swings directly behind the tractor, for instance, to ease through narrow openings. Available with 10-, 12- or *14-foot* headers, the 1014 has more new features than you can imagine. So see us today Pull a fast one tomorrow.

Pa. Grain Acreage 3 Pct. Over '73

Pennsylvania farmers have planted 1,530,000 acres of corn for all purposes, and they expect to harvest 1,080,000 acres for grain, according to the Pennsylvania Crop Reporting Service. Based on surveys conducted about June 1, acreage planted is three percent more than was harvested for grain last year. The first forecast of corn yield per acre for the 1974 crop will be published in the August crop report.

Production of winter wheat in Pennsylvania this year is expected to total 12,250,000 bushels, an increase of 67 percent from a year ago. Acreage for harvest is 350,000 and yield is expected to be 35 bushels per acre. Last year 264,000 acres were harvested and yield was only 28 bushels per acre.

Barley harvested by Pennsylvania farmers is expected total 7,685,000 bushels, a 13 percent increase over last year's harvest. Acreage for harvest is down six percent to 145,000, but yield is forecast to be 53 bushels per acre, compared with the 44 bushel yield of last year's crop.

Oats production in Pennsylvania is forecast to total 21,465,000 bushels, an increase of 22 percent from last year's production. Acres for harvest, at 405,000, is eight percent above last year's acreage and forecast yield, at 53 bushels per acre, compares with last year's yield of 47 bushels per acre.

Rye production in Pennsylvania is expected to total 480,000 bushels in 1974, compared with 405,000 bushels last year. Yield is forecast to be 30 bushels per acre, compared with last year's yield of 27 bushels.

Acreage planted to soybeans in the Keystone State totals 68,000 this year, compared with 58,000 acres last year. About 65,000 of these acres are expected to be harvested for beans. Last year 55,000 acres were harvested for beans.

Farmers in Pennsylvania expect to harvest hay from 1,930,000 acres this year, about one percent fewer acres than last year. Of the total acreage for hay 785,000 acres will be alfalfa or mixtures including alfalfa.

Corn planted for all purposes in the United States is estimated at 77.7 million acres, down one percent from the March Intentions Report but up nine percent from 1973 and up 16 percent from 1972. All regions of the country except the Western showed increased plantings from last year. Acreage is up nine percent in both the North Central and South Atlantic regions, 13 percent in the South Central Region, and five percent in the North Atlantic region, but down three percent in the Western region. The 67.6 million acres of corn intended for grain in 1974 is nine percent more than 1973 and 18 percent more than 1972. Acreage for grain is up nine percent in the Corn Belt, South Atlantic and North Atlantic states, 14 percent in the South Central states, but down four percent in the Western states. Corn planting got off to a good start this year, in sharp contrast to 1973 when the spring was unusually wet.

Sorghum planted for all purposes is 17.8 million acres, down eight percent from 1973 but 3 percent above the 1972 acreage.

Production of all wheat is forecast at a record 1,925 million bushels, 12 percent more than last year's record crop and 25 percent above the 1972 crop.

Winter wheat production is forecast at a record high 1,403 million bushels, 10 percent above the previous high set last year and 18 percent above 1972. The increase from a year earlier is the result of a sharp increase in acreage harvested. The eight percent decline from the forecast published June 10 is attributed to continued dry weather in some areas, excess moisture in others, and advancing disease damage. Yield per harvested acre is expected to average 30.3 bushels, compared with 33.1 bushels last year, 34.0 in 1972, and the record high of 35.4 in 1971.

United States soybean plantings, estimated at 53.4 million acres, were down 3 percent from the March Intentions Report. Plantings declined seven percent from last year, representing the first acreage reduction for the crop in 15 years. Despite the reduced acreage, plantings remain the second highest on record. Producers plan to harvest 52.5 million acres for beans.

Production of oats in the U.S. is forecast at 684 million bushels, three percent more than 1973 but one percent less than 1972. Yield per harvested acre is forecast at 48.9 bushels compared with 47.0 bushels last year and the record yield of 55.9 bushels in 1971.

Production of rye for 1974 in the U.S. is forecast at 22.0 million bushels, compared with 26.4 million bushels last year. Acreage harvested for grain is expected to total 910,000 acres compared with 1.04 million acres last year. Yield per acre is forecast at 24.2 bushels, compared with 25.4 bushels for 1973.

Acreage of all hay for harvest in the U.S. is estimated at 60.5 million acres, down three percent from 1973, but one percent greater than the 1972 acreage.

Before You Buy That Track-Type Loader You Think You Have To Buy... See The Caterpillar 931

IF YOU ARE NOW THE OWNER OF A JOHN DEERE 450B...an IH TD7...or a CASE 450 ...YOU SHOULD KNOW THESE FACTS ABOUT THE CAT 931

Famous Caterpillar quality and dependability are evident in every detail on the 931. So, when buying or trading, you can have the confidence that comes with a CAT **at a price you can afford.**

The CAT 931 is versatile. You can match it to your work needs with a General Purpose Bucket, a Multi-Purpose Bucket, a Ripper or a Backhoe. Whatever application you need in a small trackloader, the CAT's ready for you.

We want to talk to people who thought they **could not buy** Caterpillar machines. We want to talk to people who **never thought** of buying Caterpillar machines. If you have a need for a small trackloader in your work, the CAT 931 is the one piece of equipment to fill that need.

When you combine the features and performance of the CAT 931 Trackloader with the skilled maintenance and parts availability you can count on from Cleveland Brothers, you've got a total package that's hard to equal. And if you consider financing a problem, give us a call. We can tailor financing to fit your needs.

Don't buy that machine you thought you had to buy. Come in and see us first. We think we'll change your mind.

To find out more about the CAT 931, call us in Harrisburg (717) 564-2121, or fill in and return this coupon.

Pequea Valley FFA Activities

With the final results just published, the annual Pennsylvania FFA Activities Week at Penn State University again saw Pequea Valley fare very well.

In the Dairy Judging Contest, in which there were over 260 contestants and over 80 teams, Pequea Valley placed 14th among teams with Donald Miller placing 52nd and Nelson Martin finishing 58th. In the Safe Tractor Operation Contest, John Beyer finished 12th out of 26 contestants. In Land Judging, there were over 140 contsts, with Carl Caskey placing 60th and Bryan Heidbreder finished 63rd. Finally in the Livestock Judging Contest, Thomas Denlinger placed 8th and Fred Leaman finished 86th. Tom's exemplary showing entitles him to participate at the American Livestock Exposition at Richmond, Virginia, September 20 to 23, Chapter Advisor, Gerald H. Phillips will serve as coach for the Pennsylvania Livestock Judging Team at this contest and will accompany the team to Richmond.

In other summer activity news, the first annual Pequea Valley FFA Slave Auction was held on Saturday July 13th. Although excellent weather kept many bidders at home busy with field work, the bidding was very keen for those who turned out. Auctioneer Lynn Martin tapped the block at $3.50 per hour for the highest bid of the day. Receipts from this activity are divided between the members and the Chapter treasury.

Finally the annual summer picnic and swimming party will be held on Friday, August 2nd at Kenneth Hershey's. All members and incoming Freshmen are invited to attend.

Buyers Convene For Holstein Sale

Friday evening, July 19, marked the 12th Anniversary Sale at the Black and White Holstein Farm, 2220 Dairy Lane, Lancaster.

The first ten cows cataloged sold for an average of $7850. Black and White Holsteins offered sold at an average of $2111 with a herd dispersal average of $918. Prices ranged from $800-$28,000.

Doreigh Farms Magic Rosie, a three and one half year old who was classified very good, having a 3.2 percent test and producing 18,328 pounds of milk in 320 days, was sold to Providence Haven Farm RD4, Carlisle for $28,000. Buyers were Jake Emmick, Ron Heffner, Don Reifsinger and Charles Myers.

The cow had been bought by the Myers' at the National Holstein Sale from Samuel F. and Marian Long of RD1, Christiana.

The sale, which drew buyers from all over the country and Canada brought the following highlights:

Ben-Phyl Hope Et was sold to Harvestore Haven, Silver Lake, Indiana, for $12,000.

Red Rose Astro Lass brought $4100 being sold to Obie Snyder of Bedford County.

Two "Hagen" sisters sold to Harvestore Haven in Indiana brought $3250 each.

Kenneth Young, Lancaster County, was the area's largest buyer purchasing seven head of Holsteins.

Largest out of state buyer was the Harvestore Haven Farm in Indiana.

The Myers' would like to thank all their friends and buyers who helped to make their sale a success.

Maine 4-Hers To Visit County

Lancaster County 4-H members and families will open their homes to thirty 4-H members from Oxford County, Maine from July 29th until August 4th.

The first part of a 4-H Interstate Exchange Program begins with the arrival of the Maine 4-H'ers at the Farm and Home Center at noon on Monday.

Lancaster County hosts will meet at 11:30 A.M. to finalize plans for the week.

On Tuesday, July 30th, Maine and Lancaster 4-H'ers will leave at 1:00 P.M. from the Farm and Home Center to tour Landis Valley Farm Museum and parts of the county including a stop at a local dairy bar.

Wednesday's activities include a family picnic and swim party. The final event planned for Maine 4-H'ers is the Rutherford County, Tennessee 4-H Square Dancers performance on Saturday, August 3rd at 8:00 P.M. in the Farm and Home Center Auditorium.

Lancaster County 4-H'ers will travel to Oxford County, Maine, August 17th to the 25th to make a return visit with their guests in Lancaster this week.

The Interstate Exchange Program sponsored by Lancaster County 4-H Council is coordinated by the Cooperative Extension Service as part of its 4-H Youth Program. 4-H members from ages 13-19 are eligible to participate. Lancaster County has been active in the program for several years. Recent Exchange trips have been conducted with Michigan, Iowa, Tennessee, North Carolina and Kentucky.

About 100 Lancaster County 4-H seamstresses will participate in 4-H Dress Revue on Thursday, August 1st at the Farm and Home Center, Lancaster.

Dress Revue competition begins at 9:00 A.M. with participant judging. All models judge each other on clothing construction, appearnace and modeling abilities. Top scorers will then be judged by two professional judges, Mrs. Jean Pryzbylkowski and Mrs. Barbara Shenk.

A sepcial feature of this year's Dress Revue is Mrs. Ruth Adams, Fashion Consultant for John Wannamaker's, Harrisburg, who will present a program on fashion and fashion accessories at 11:00 A.M.

A buffet luncheon for all participants and guests follows. The climax of the day's activities is the 4-H Dress Revue Fashion Show. This year's theme is the "Many Eras of Fashion". Along with the new outfits made by 4-H members, a few old costumes will be modeled.

Six Senior Dress Revue contestants and three Junior Dress Revue contestants will be selected to attend Regional Dress Revue to be held in Harrisburg on August 9th.

Millipedes

Numerous phone calls to our Extension Office reflect the common problem of millipedes in many areas. These small, worm-like, hard-shelled, copper-colored insects have been a problem for many years. To our knowledge they do not do any damage but are a definite nuisance around and in the home. They are often found near new buildings, or where there are large amounts of peat moss or other organic matter. The control is merely to keep spraying or sprinkling with Sevin, Malathion, or Diazinon around walks, porches, and in the shrub area near these entrances. Repeated sprays are needed every few days in order to keep them out of the house. The Japanese Beetles are now making their annual appearance and these same sprays will be needed frequently in order to protect plants.

PUBLIC AUCTION
OF REAL ESTATE

SATURDAY, AUGUST 3, 1974

Sperry New Holland Motion Picture Cited

An agricultural motion picture produced by Sperry New Holland has won a top award from the Committee for International Non-Theatrical Events (CINE).

The CINE Gold Eagle award will be presented to Sperry New Holland for the "Agri-Newsreel-1973," a motion picture showing new and unusual agricultural developments throughout North America. Competition for the award was open to film producers around the world.

"Agri-Newsreel-1973" was written and directed by Donald L. Collins, press relations supervisor for Sperry New Holland. Aldin Brown, senior photographer for the company, was cameraman.

Collins and Brown traveled to Mexico's developing dairy districts in the mountainous Laguna area for one segment. To get story of a husband and wife farming an island in Lake Ontario, the team flew into the island on a ski-equipped light plane during the winter when coyotes were threatening the couple's sheep.

Other stories included modern cowboys at work in British Columbia; a modern hay pelleting plant in Ohio; and an Alberta community fighting for survival after years of devastating rains and a visit with President Nixon by the Farm Family of the Year.

The award will be presented at a ceremony in Washington, D.C. later this year.

Short Summer?

The summer can seem very, very short if you have a note due in the fall at the bank

Cooking Beef

As in any cooking, meat requires a special touch and a grain of common sense.

When selecting beef to cook consider the tenderness, size and thinkness of the cut required. Thick cuts from the rib, loin and sirloin of any quality grade are likely to be sold for roasting. Lower grades of these cuts need most cookery.

Steaks that are thin are usually best pan broiled or fried. Steaks that are one inch or more thick need oven broiling.

To keep the flavor and juice of the beef in, cook slowly and at moderate temperatures.

Remember roasts that have an outside covering of fat take a longer time to cook then those that are quite lean.

Slim and Trim Tuna Lasagna

1 pound lasagna noodles
2 tablespoons butter
½ cup chopped onion
2 cans water packed tuna well drained
1 can soup, chicken or mushroom
½ cup skim milk
½ teaspoon garlic salt
½ teaspoon oregano
¼ teaspoon pepper
1½ cups cottage cheese
8 ounces of Swiss or Mozzarella cheese thinly sliced
grated parmeasan cheese

Cook noodles according to package directions. Melt butter in pan and add onion, fry until golden brown add tuna and soup, seasonings and milk. In a 7 x 11 pan alternate layers of noodles, tuna, sliced cheese and cottage cheese. Sprinkle with parmesan on top and bake at 350 degrees for 30 minutes.

Mrs. Paul Sauder
Manheim

xxx

Home Made Root Beer

2 cups white sugar
1 gallon lukewarm water
4 teaspoons root beer extract
1 teaspoon dry yeast

Put in jars, cover and set in sun for 4 hours. Chill before serving. Ready to serve the next day and no need to bottle.

Mrs. David Horning
RD3 Ephrata

xxx

Breakfast Special

6 cups oatmeal
3 cups wheat germ
3 cups cocoanut
1½ cups brown sugar
½ cup melted margarine or butter
¾ cup salt

Mix well and toast in oven about 1 hour at 200 degrees stirring often. Eat with milk.

Mrs. Lester Hursh
Mt. Joy

xxx

Corn Relish

18 ears corn (cut off cob)
2 red peppers
2 green peppers
6 small grated onions
1 stalk celery

Chop all above ingreidents:

1 pound sugar
1 tablespoon salt
2 teaspoon dry mustard
1 pint vinegar
1 cup water

Mix all ingredients and boil 20 minutes. Pour into jars and seal. Yields 6 pints.

Mrs. Lester Hursh
Mt. Joy

Kosher Dill Pickles

25 4 inch cucumbers
⅛ teaspoon powered alum
1 clove garlic or ⅛ teaspoon garlic
2 heads dill
¼ to ½ teaspoon crushed red pepper
1 quart vinegar
1 cup salt
3 quarts water

Wash cucumbers. Let stand in cold water overnight. Pack in jars. To each quart add the above amount of alum, garlic, dill and red peppers. Combine vinegar salt and water; heat to boiling point and fill jars. Cold pack to the boiling point. Best to wait at least six weeks before using.

Sylvia Ebersol
Peach Bottom

xxx

Cherry Sundae Pie

4 cups corn flakes (crushed 1 1-3 cups)
3 tablespoons sugar
1-3 cup butter (soft)
1 quart vanilla ice cream
1 can cherry pie filling

Mix cornflake crumbs, sugar and melted butter thoroughly. Press firmly and evenly against bottom and side of 9 inch pie pan. Bake at 375 degrees for 8 to 10 minutes. Cool. Just before serving fill crust with ice cream. Top with pie filling.

Any kind of fruit can be used and made with clear-jell for filling. Strawberries are good.

Mrs. W. H. Fox
RD1, Denver.

xxx

Apple Butter Pie

1 egg
2 tablespoons flour
1½ cups apple butter
¼ cup sugar
1½ cups milk
1 unbaked pie shell

Bake in hot oven (450 degrees) 45 minutes, or until set and browned. Serve with whipped cream.

Ada Stauffer
Ephrata RD2

xxx

Caramel Pudding

33 quarts milk
¼ pound butter
4 teaspoons vanilla
1 box (1 pound) brown sugar
8 egg yolks
1¼ cups flour
1 teaspoon salt

Add sugar and salt to melted butter. Brown slightly. Heat milk and add to sugar mixture.

Make a paste with flour and two cups milk. Add beaten egg yolks. Stir into mixture and heat until thick. Cool.

Carol Hursh
RD1
Ephrata

Nut Tapicoa

1 quart milk
¼ teaspoon salt
¼ cup sugar
1-3 cup tapioca

Cook this 15 minutes, then pour beaten eggs slowly. Cook one minute more. When ready to put on the table, put in:

¾ cup brown sugar
6 teaspoons butter, melted
1 cup crushed pineapple
1 1-3 cup nuts

S. E. Martin
RD1, Denver.

xxx

Dry Beans

Americans eat an average of seven pounds a year of dry beans, whether they come out of a can or out of a bag to be cooked.

Pork History

Using salt to preserve pork was done as far back as 200 B.C.

PUBLIC AUCTION

OF VERY VALUABLE REAL ESTATE

25 ACRES, MORE OR LESS AND PERSONAL PROPERTY

SATURDAY, AUGUST 10, 1974

Starting at 11:00 a.m.
Real Estate at 2:00 p.m.

Located in Huntingdon County, Pa. From Lewistown take Route 522 South through Mt. Union to Allenport, take Route 103 North, 2 miles to sale. House is approximately 25 miles Southwest of Lewistown in the Blue Ridge Mountains.

REAL ESTATE consists of a Beautiful 2½ Story STONE HOUSE - 10 large rooms, cellar and attic. Good roof, 2 flight stairway with landing and railing, old doorways with old locks and strap hinges, 5 fireplaces, 18" stone walls and 12" window sills. Huge hallway to front entrance, lawn, shrubbery, flowers, and a grove of Sugar Maple trees. Approximately 3-10th mile of frontage along the Juniata River and a good trout stream running through property.

An ideal area for hunting and fishing. Near a country club and an 18-hole golf course. Gravity fed spring water in house. You should look this one over to appreciate its value and beauty. An unaltered Early American home over 200 years old.

ANTIQUES

German Carved Rosewood Grand Piano, over 100 years old; Hickory Harness Trace; Several Oak Matching Solid Bottom Chairs; Several Old Oil Lamps; Washstands; 6-leg Cherry Dropleaf Table; Empire Chest of Drawers; 4 Oak Beds with High Headboards; Copper Kettle.

Inspection of Real Estate, Friday, August 9th, 1:00 p.m. until 8:00 p.m. Buyer shall pay 15 percent of purchase price day of sale and balance at settlement.
